

## EXPECT MILLER BILL TO REACH HOUSE TUESDAY

Soldier Bonus Resolution  
Constitutional Rules  
Price.

## FAVOR PASSAGE

Atwood Bill Requiring Fish-  
ing Licenses Passed  
By Senate.

Columbus, O., Jan. 27.—Upon the conclusion of its hearing today, the house temperance committee is expected to recommend passage of the Miller bill providing for a state prohibition commissioner and other dry enforcement machinery and for search and seizure in connection with illegal manufacture and use of intoxicating liquors in private residences.

It is said that the bill probably will come up for passage in the house next Tuesday.

Attorney General Price has informed legislators of his belief that the soldiers bonus resolution will be constitutional if approved by a vote of the people.

The resolution provides for an amendment to the state constitution permitting the state to issue bonds up to \$25,000,000 for the purpose of paying a bonus of not more than \$200 to each of Ohio's 243,000 world war veterans.

The house military affairs committee has decided to recommend passage of the measure. The taxation committee has charge of the proposal in the senate.

The senate has passed the Atwood bill requiring fishermen, older than 17 years, to obtain licenses costing 50 cents each. If passed by the house it is claimed, the bill will raise \$200,000 a year for use in increasing the amount of fish in inland streams which, otherwise, according to Senator Atwood, will be fishless in ten years.

Among the new bills introduced are: By Myers, Cuyahoga county, increasing personal property exemption to \$500 from \$100; by Griswold, Geauga, boosting the state school fund to \$1,000,000 from \$500,000; by Burns, Washington, abolishing district school superintendents and providing for providing for transfer temporarily of state highway funds to the common school fund to pay teachers salaries.

A bill, introduced by Senator Whittemore, Akron, requires companies owning public utility properties which lease these properties to operating companies to pay an excise tax of 3-20 of 1 per cent on their capital stock. The state tax commission asked for passage of the bill which is designed to raise nearly \$1,000,000 annually in taxes.

Rep. Spidel, Montgomery county, introduced three bills requiring funds of 10,000 population, or more, to regulate plumbing, for a licensing system for plumbers, and requiring master plumbers to pay a \$5 registration fee, the fees to be used in defraying expenses incurred by the state plumbing inspectors.

Rep. Taylor, Huron county, offered a bill giving electric railways the same right as other railroads to condemn property in cities.

A bill by Rep. Morris, Hamilton county, provides for a 25 cents minimum charge, instead of 50 cents for pullman car seats, and makes the rate a half cent per mile.

## STATE MUST BE RUN EFFICIENTLY DAVIS TELLS NEWSPAPERMEN

Convention Of Associated  
Ohio Dailies Ends On  
Wednesday.

Columbus, O., Jan. 27.—Reiterating his determination to place the state government on an efficient basis, Gov. Davis delivered an address at a luncheon marking the close of the midwinter session of the Associated Ohio Dailies. The governor solicited the support of the editors in his plan to eliminate many state boards and commissions.

Officers re-elected are: G. W. C. Perry, Chillicothe, president; P. W. Bush, Athens and E. H. Mack, Sandusky, vice-presidents and Louis H. Brush, Salem, secretary. Alfred Maswell, Bowling Green, was chosen treasurer.

Resolutions were adopted favoring the 48-hour week for newspapers and print shops.

## FAINTS, GIRL IS FOUND UNCONSCIOUS

Marion, O., Jan. 27.—Report was made to the police today that Grace P. Hizer, aged 10, had been found unconscious near her home after being followed by a man last night. She clutched a half dollar in her hand having been sent to the grocery. Doctors say that the girl succumbed to excitement and fainted. She was uninjured.

## IS OLDEST ACTIVE MARINE IN U. S. AT AGE OF 82 YEARS

Sergeant Henry Hallowell of McPherson, Kan., who, at eighty-two, is the oldest marine in active service As erect and soldierly in appearance as the day as he stood as orderly to President Buchanan at the White House, Sergeant Hallowell clearly typifies the healthy outdoor lives of the "Soldiers of the Sea." His first enlistment is dated May 28, 1869, and since that time he has taken part in every "scrap" in which the "Devil Dogs" engaged.

## START PROBE INTO DISASTROUS FIRE OF UNKNOWN ORIGIN

State and Federal Authorities Investigate  
Blaze.

Cleveland, Jan. 27.—An effort by state and federal authorities to determine the cause of the fire which early yesterday morning destroyed the Grays armory began this morning at 9 o'clock. Deputy State Fire Marshal Thomas Doreen conducted an investigation in the Republican building.

More than thirty witnesses have been summoned and others may yet be called. Bliss Morton, chief of the federal bureau of investigation, has asked for a transcript of all testimony offered and with this as a basis will seek to link it up with other fires of supposedly incendiary origin, such as that which destroyed the state capitol at Charleston, W. Va., and the city hall at Columbus.

## EIGHT ARE INJURED AS AUTO CRASHES IN POLICE CAR

Four of Those Hurt  
Are Columbus Police-  
men.

Columbus, O., Jan. 27.—Eight men, four of them policemen, were cut and bruised in a collision between a police auto and another machine.

Those injured are: Police Corporal James W. Baker, driver of the police auto; W. C. Peckman, Ralph C. Hammer and William M. Kershaw, all patrolmen and Carl Tysner, driver of the other car, E. J. Kaiser, Arthur Baker, brother of Corporal Baker and H. A. Tresner.

It is claimed that the machine driven by Tresner, going at high speed, crashed into the police auto which was being operated at a moderate rate. Both machines were demolished.

## MACHINE CARRIED ON ENGINE PILOE; DRIVER UNINJURED

Marion, O., Jan. 27.—Mack Cook's passenger train late yesterday, his machine being carried 200 feet on the engine's pilot. Cookston was not injured but his automobile was demolished.

## WELL DRESSED WOMAN IS BEING SOUGHT IN CONNECTION WITH MARION ROBBERY

Belief Expressed That Handsomely Gowned Woman  
Knows Something Of the Affair—Greatest Haul  
In History of the County It Is Learned.

Marion, O., Jan. 27.—Marion is still very much exercised over yesterday's sensational robbery when two bandits got away from the county treasurer's office with \$14,300, leaving behind the sum of \$23,896, which had been placed in envelopes. Sheriff Frank A. Washburn and Police Chief J. W. Thompson admitted today they had no clue that likely would lead to the arrest of the bandits, but they believe that a handsomely gowned woman who put up an automobile in a local garage Sunday knows something about the robbery.

## GREATEST INDUSTRIAL CRISIS FACES ENGLAND

—Declares Labor Leader.

Never Before In Britain's History Has Apparent Break  
Between Labor and Government Been So Marked  
—Labor Opens Conference to Alleviate Trouble.

London, Jan. 27.—"We are facing the greatest industrial crisis in history," declared John Hodge, laborite member of parliament in opening the national labor conference on unemployment today.

"It is a crisis," continued Mr. Hodge, "that extends all over Europe and even to the United States."

Never, perhaps, in Britain's history has the apparent break between labor and the government been more marked than today, when a joint conference of the entire labor movement was opened to launch a campaign of opposition against the government and of pressure against the cabinet to compel immediate alleviation of unemployment.

The unemployment crisis, which has been growing steadily worse, has a new element of bitterness injected by labor's charge that a large part of the nation's idleness is artificial. Labor leaders declare that capital is increasing the number of unemployed in a deliberate attempt to force down wages. The main outlines of the situation are these:

Unemployment has passed the one million mark by a wide margin. Labor circles claim that these directly affected, together with families and dependents, run to a total of about 5,000,000.

Hopes that reopening trade with Russia would bring an industrial revival have come to nothing for there now seems little likelihood of an Anglo-Russian trade pact being signed.

The extremists among the labor leaders are counselling a general strike to compel the government to act but the moderates oppose such drastic action on the ground it would only increase the national distress.

## BERGDOLL ESCAPES CLUTCHES ONCE MORE IN BERLIN, REPORT

German Officers Save  
Draft Dodger and U. S.  
Fugitive.

Berlin, Jan. 27.—An attempt was recently made at Eberbach to kidnap Grover Cleveland Bergdoll. American draft evader and a companion named Stecher by five men in an automobile, two of whom were American military intelligence officers and one an American sergeant, according to the Eberbach Zeitung.

Bergdoll and Stecher have been living at Eberbach, a small town in Baden, for some months past, according to a dispatch to the Tageblatt from Karlsruhe.

## OFFICIAL INQUIRY INTO LOSSES STARTS

Washington, Jan. 27.—An official inquiry into the losses sustained by the American Merchant Marine due to a seizure and confiscations of vessels by Great Britain during the world war, is provided for in a resolution passed by the senate today.

Senator Lodge, Republican of Massachusetts, chairman of the senate foreign relations committee, introduced the resolution.

The resolution provides that the state department furnish full information concerning such action by Great Britain. The information is desired by the foreign relations committee in its consideration of several claims of American shipping men against the British.

## MILLS WILL REOPEN.

New Bedford, Mass., Jan. 27.—The Nashvona Mills, which have been closed for six weeks, will reopen Monday and operate in all departments on a four-day schedule. The plant employs approximately 2,200 in normal times and manufactures cotton and silk novelties.

## DEVALERA IN PARIS TO SEEK AUDIENCE AT SUPREME COUNCIL

Speculation Rife As To  
Actions Of Irish  
President.

Paris, Jan. 27.—Eamonn DeValera, "president of the Irish republic" is in France, according to the newspaper L'Ouvreur today. This newspaper printed an interview with DeValera dated "somewhere in France" in which the Irish leader was quoted as saying:

"Other countries of the British empire accepted the dominion form of government because their geographical location permitted them to separate from the empire if they chose to do so. Ireland is too close to England. England could use force against us; consequently we shall wait for independence."

The foregoing dispatch if true indicates that DeValera may have gone to Paris to seek a hearing before the supreme council. A London newspaper Wednesday morning printed a report that the Irish question might be put up to the league of nations.

## ERIE LAYS OFF.

Marion, O., Jan. 27.—This triple division point of the Erie railroad was held today by the order issued from the New York offices of the road that all employees should work only five days a week. The monthly payroll of the Erie in Marion amounted to more than \$200,000.

## FLYING GRANDMAS COMPLETE TRIP

Though they intended to fly all the way from Omaha, Neb., to Washington, D. C., Mrs. H. H. Wheeler, fifty-five, of Lincoln, Neb., and Mrs. Draper Smith, sixty-six of Omaha, were compelled to abandon their flight at Des Moines because of bad weather and continue their journey to Washington by rail.

Both Mrs. Wheeler and Mrs. Smith are grandmothers and were entrusted with the duty of carrying Nebraska's electoral vote to the capital. Soaring in a fast airplane betwixt riding in a Pullman any day is the verdict of the "Flying Grandmas."

## GUNS MUST BE CHECKED AT DOOR RULES WEST VIRGINIA JUDGE

Tranquility Rests Over Court Room as Second Day Of  
Matewan Gun Fight Trials Start, With  
Defendants Disarmed.

County Court House, Williamson, W. Va., Jan. 27.—The state scored in the first legal skirmish with the defendants in the Matewan gun-fight trial today when Judge Robert D. Bailey sustained the motion of the prosecution to the plea of the defense to quash the indictments charging 24 men with murder.

Immediately after this ruling the court addressed twenty three of the defendants, telling them they were charged with the murder of Albert C. Felts—the first case taken up by the state. To Judge Bailey's question of guilt or innocence, the 23 men answered in a chorus "Not guilty."

Williamson, W. Va., Jan. 27.—Following the "disarmament" order issued yesterday a distinct note of tranquility rooded over the courtroom of Judge Robert D. Bailey, when the second day's session of the Matewan gun fight trials opened this morning. The order had been strictly enforced from the distinguished legal luminaries for the prosecution and defense down to the crippled and bewildered old negro who is one of the fixtures among the spectators in the gallery. All were carefully searched for weapons and every man who "toted" a gun had to deliver it up.

The spectacle of men accused of murder sitting on the defendant's bench with revolvers visible in their hip pockets must not be repeated the judge ordered. The only men who bore weapons in the court room today were High Sheriff Pinson and his deputies and a couple of army officers attached to the federal troops still in this region.

The order to give up their guns before entering the courtroom came as a distinct shock to many to whom a "gat" means what the pocketbook does proverbially to the city man.

Since the order was impartially enforced, however, and did not apply only to the defendants as first reported, the symptoms of defiance and bitterness which had begun to manifest themselves died away. However there seemed to be a stronger current of tension than when the trial of the 24 defendants opened.

The first question taken up today was the plea of abatement entered by the defense on Wednesday, asking that the indictments be set aside on the ground that one of the grand jurors which handed up the indictments was not properly constituted. To this plea the prosecution made an effective counter argument. Judge Bailey said he would make a ruling Thursday, but in the meantime told the state to proceed with the preparation of its case.

## INCREASED GAS RATE LIKELY WILL BE ACCEPTED BY CITY BELIEF EXPRESSED

Proposal To Raise Rate From 40 to 45 Cents Not Exor-  
bitant is Opinion Of Members Of City Com-  
mission Thursday.

That the increase in rates of the Ohio Fuel Supply Company from 40 cents to 45 cents on the thousand feet as announced here Wednesday, will probably be taken up at the regular meeting of the city commission which has been postponed from Thursday to Friday evening this week, is the opinion of members of the body.

However, it is not believed that any action regarding the increase will be discussed at the meeting. Following the filing of the proposed increase, to become effective here April 1, with the State Public Utilities Commission, the city will have a long period in which it can file a protest with the commission, should such an action be decided upon.

J. Thorb Charters, president of the city commission said Thursday that he was willing to take any action for the protection of the citizens, that would be found advisable. He added, however, that from the information at hand at present, that he did not believe the increase exorbitant, unjust, or out of proportion. He said that he did not feel that the question of rate was nearly as important as the question of gas at any rate, citing the difficulties now being gone through with to supply the demand, from fast waning wells.

C. S. Frazer, member of the Commission, said the increase did not appear to him as exorbitant in view of the circumstances. He said that in taking any action on the matter in the commission that he would consider the fact that the Ohio Fuel Supply Company had never failed in service, and had always supplied sufficient gas for this city, despite the facts that companies operating in other cities nearby, have been unable to furnish sufficient even for cooking purposes during the cold weather. It is also his opinion that the supply is a more serious question than that of the rate.

## RAILS MAY ASK PERMISSION TO REDUCE FORCES

Movement To Curtail  
Thousands of Employees  
Under Way.

## RATES NOT ENOUGH

Executives Say Operating  
Expenses Must Be Cut  
To Minimum.

Chicago, Jan. 27.—A concerted movement on the part of the leading railroads of the country to reduce thousands of employees is under way today. Authority for the wage reductions will be asked of the United States railway labor board within the next 30 days, it was learned from a reliable source.

The first move toward conjunctive action on the part of the leading railway systems will be discussed here tomorrow when members of the labor committee of the American Association of Railway Executives will assemble. This committee will discuss the amount of reductions to be asked and lay plans for joint action by practically all of the roads.

Evidence that present railroad rates are not providing the railroads with sufficient income to earn the six percent guaranteed by the Cummins-Esch law will be laid before the railway wage board. The railway executives also will contend that rates are now as high as business can be expected to bear and that operating losses have been reduced to minimum consistent with public safety. The only alternative remaining, the railway executives will contend, is to reduce expenses by cutting wages.

Among the members of the committee that will meet here tomorrow are W. W. Atterbury of the Pennsylvania; M. L. Bell, of the Rock Island, and E. E. Loomis of the Lehigh Valley.

Wage increases of approximately 120 percent have been given railway workers since the Adamson eight hour law became effective, the railway executives declare, and wage increases, they contend have accounted for nearly two-thirds of the increase that has been accomplished in the operating expenses of the roads.

Vigorous opposition to the proposal of the railway heads is expected from the leaders of the various railway wage board is regarded as inevitable. The possibility of strikes that would paralyze the transportation system of the country as a protest against wage reductions is not discounted by observers of the situation.

## PICTURE SHOWS AND SCHOOLS ARE CLOSED IN JAMESTOWN

Order Applies To All  
Churches in Order to  
Check Epidemic.

Action has been taken by County Health Officer R. H. Grube to prevent the further spread of the epidemic of small pox in Jamestown. Schools and picture shows were given the closing order Wednesday and the churches were also requested not to hold any Sunday School Services, Sunday.

No new cases were reported on Wednesday and the disease is thought to be checked by the efforts of the authorities. Vaccination of the school children is being pushed to the fullest extent.

## LUMBER DEALERS OPPOSE TARIFF ON IMPORTED MATERIAL

Expect Secretary Torrence  
Will Be Re-elected to  
Office.

Columbus, O., Jan. 27.—Opposition to a tariff on imported lumber is registered in a resolution adopted at the 140th annual convention of the Ohio Association of Retail Lumber Dealers in session here. About 800 delegates are present. A resolution was adopted pledging affiliation of the state association with the proposed merger launched by the rival national lumber dealers organization.

It is expected that Secretary Torrence, Xenia, and Treasurer, L. P. Levin, Cincinnati, will be re-elected at the election to be held Saturday.

# OHIO ANTI-SALOON LEAGUE HEAD SAYS MILLER BILL FAIR

Columbus, Jan. 27.—James A. White, Superintendent of the Ohio Anti-Saloon League, declared that no law-abiding citizen or his family will be disturbed by the search-and-seizure clause of the Miller bill. He also pointed out that the search-and-seizure clause under the old Ohio license law did not even except private residences and that it was in force from 1914 until prohibition succeeded license in 1919. Mr. White also noted that the clause in the Miller bill is far less severe than that under which the Ohio game warden and his deputies are operating.

"If the unwarranted attack from some sources against the Miller bill known as Senate Bill 17, should be successful," said Mr. White, "bootleggers will be protected in use of their homes for storing liquor as a base of supply and for the further manufacture of intoxicating liquor. Senate Bill 17 does not provide for the search and seizure of a bona fide private home. The search and seizure was authorized in Section 4 of the Crabbe act, which provides that search can be made only for unlawful sale.

"Bootleggers now are taking advantage of the fact that a search can be made only for an unlawful sale and are using their places of residences for storage purposes and unlawful manufacture carrying it out from this base of operations and selling it at some other point. Thus the law is evaded.

"Senate Bill 17 provides: 'In the performance of the duties imposed upon them by law, the commissioner, deputy and inspectors for the purpose of examination, can at a reasonable hour enter into or upon the buildings, places or things excepting such buildings, places or things or parts thereof as are used exclusively for bona fide private residences under the laws prohibiting the liquor traffic wherein liquors are possessed, which have been illegally manufactured or obtained.'

"It is apparent," concluded Mr. White, "that any bona fide private residence is perfectly safe and free from entrance for search and seizure. These bootleggers are securing much publicity under the heading 'A man's home is his castle which is true only so long as he does not violate the law.'

If the owner of a house, has in possession liquors that were neither illegally manufactured or illegally obtained his castle will not be invaded. The law will not disturb that man. But by neither the English nor common law nor any statutory law is a man licensed to make a 'sanctuary' of his home to protect criminals or commit crime."

# SOCIETY GIRL IS EXPERT AT TRAPS

not become flat; but once the bust has become so, there is very little that can be done. Your figure will improve if you will build yourself up physically. I can judge from your description that you are now somewhat run down.

Nellie Bly—If a feather bed is kept clean and well aired I do not see why it should be unhealthy to sleep on. The only possible objection would be that sufficient ventilation could not reach the body during the night. Sleeping under a feather bed is another matter for its weight would be unhealthy. A down quilt would be warm enough for the coldest night and at the same time light, yet would permit the necessary amount of ventilation.

**QUICK ARREST MADE.**  
Columbus, O., Jan. 27.—Within 20 minutes after Mrs. Addie Chancellor, 39 years old, negress, was murdered at her home in North Twentieth street police had her alleged slayer, Claude Watson, negro, under arrest. Jealousy is said to have prompted the murder.

# GERMAN CAPTAIN IS GIVEN UP FOR LOST

Berlin, Jan. 27.—A report that Captain Paul Koenig, commander of the German commercial submarine Deutschland which made two voyages to the United States in 1916, has been lost at sea was officially confirmed by the department of high seas fisheries today according to a dispatch from Cuxhaven.

Another dispatch from Rohr, home of Captain Koenig quoted members of Koenig's family as saying they had given up all hope for his safe return.

Captain Koenig was commander of the fishing boat "Senator Michaelis."

# COMMISSION PROBES CHARGES OF LABOR

Washington, Jan. 26.—The interstate commerce commission today

inaugurated an investigation of charges made by Machinists organizations that railroads are having repair work done in "outside" shops at high costs. It was intimated in the charged filed by the machinists that railroad officials held financial interests in the "outside" shops.

# Beauty Chats

THE SOFT VOICE  
If every woman realized the irresistible charm of a soft and cultivated voice she would do everything in her power to have one. If you are the owner of a beautiful voice, do not bother to read this, for this Chat is not intended for you—it is only for the woman who knows her voice is bad, or who has never thought very much about it.

If you have never thought very much about it, listen to the quality of your own voice and listen critically to the voice of your friends. Then decide whether or not your voice is good, if it is not you can do an enormous amount for it by watching for hard tones or inflections and softening them whenever you speak. You can also do wonders in the way of self-improvement by getting books on singing methods and on elocution from the public libraries. In fact, it would pay you to purchase one or two of the simplest text books which are used in the schools and to study them and practice their methods at home.

If you can take singing lessons, or if you can join a glee club, so much the better. The best way of cultivating a bad voice, in my opinion, is by learning to sing for this makes the voice softer and richer and gives it variety and a charming inflection. Perhaps you can join singing classes where lessons would only cost half or a quarter of a dollar.

But if you cannot afford either the time or the money for this, you can at least listen for your own faults and correct them as far as possible yourself. In a few weeks I will write a series of Chats on certain exercises that will develop the voice.

Mrs. M. M.—The best developing formula which I have, is a fattening

Ice Coupon Books can now be purchased at the Office of The Wilson Engineering & Contracting Company, 33 S. Detroit Street. Save ten cents a hundred by using Coupon Books. adv-2-2

Miss Clara O'Brien is slowly recovering at her home on Hill street, from the effects of a ruptured tendon, which she received when she slipped and fell several weeks ago.

City Manager Kenyon Riddle, members of the city commission, J. Thorpe Charters, C. S. Frazer, Dr. A. D. Haven, Arthur Whalen and Harry Fisher, City Solicitor J. A. Finney, City Auditor T. H. Zell, and Frank A. Jackson and Earl Snider, who were associated with the recent paying work here, will be guests of the Republic Asphalt Company of Cleveland, the company that paved the local streets, at a dinner at the Deshler Hotel, Columbus, Thursday evening.

## NO ACTION WILL BE TAKEN BY SCHWAB ON ACCUSATIONS

New York, Jan. 27.—Charles M. Schwab will take no action regarding charges that he accepted payment from the government while serving as director general of the Emergency Fleet Corporation. He is content to "drop the whole matter," he said today.

"I don't want to be vindictive," explained Mr. Schwab. "I'm content to forget the whole business. Of course it's rather unfortunate that such a thing should have occurred at the end of a long business career, in which I have sunk my entire time and fortune."

He smiled when reference was made to the scene before the Walsh congressional committee Tuesday when Mr. Schwab was so choked with emotion that he asked to be excused from testifying further, and was cheered vigorously by spectators. "That was rather dramatic wasn't it," he remarked.

## SAYS UNIVERSITY OF MICHIGAN IS BADLY OVERCROWDED

Detroit, Mich., Jan. 27.—Students crowded into a dissecting room so closely that there is no room for tables to lay their books on, a maternity hospital equally crowded, and the doctors hardly able to make their way between the beds, accommodation in the engineering department so limited that many of the students who expected to graduate in 1932 will be kept another year to make up their course and a museum containing a priceless collection housed in a fire trap these are some of the conditions that exist in the University of Michigan and which caused the president Marion Le Roy Burton, to declare at a luncheon of the Exchange Club that "It was a disgrace to Michigan."

## DISARM CITIZENS

Milan, Jan. 26.—As the result of recent clashes between socialists and non socialists, in which many persons were killed and wounded, Italian government troops today began disarming all citizens in the provinces of Bologna, Ferrara and Modena.

## FORD DIRECTOR QUILTS

Detroit, Mich., Jan. 27.—Warren C. Anderson, of Detroit, for the past two years director of the five European branches of the Ford Motor Company resigned, he announced last night. He refused to cite his reason for the step. Mr. Anderson joined the Ford Motor Company here 16 years ago.

## Society

## ENTERTAIN WITH INFORMAL PARTY

Mrs. Ward Huston entertained informally with three tables of bridge at her home on West Second street Wednesday evening. Mrs. Huston's guests were, Dr. and Mrs. Harold C. Messenger, Mrs. Carl Babb, and Mrs. Babb's two house guests, Mrs. Flving Stokes of Troy and Miss Ada Roubush of Cincinnati. Mr. and Mrs. J. Kenneth Williamson and Mr. and Mrs. E. S. Myers.

## SOUNDS WARNING TO AMERICA ON HOUSING SHORTAGE

Washington, Jan. 27.—America's housing shortage will lead to "paternalistic subsidy legislation" unless immediate steps are taken to bring about the resumption of construction work, Senator Calder, of New York, chairman of the senate reconstruction committee, declared today before the National Housing Conference of the Chamber of Commerce of the United States.

"We may be approaching a condition of affairs such as exists in many European countries today," Senator Calder declared. "This will mean the adoption of European precedents born of the paternalism of monarchies, rather than a continuation of the American precedents which have made it possible for each man through exceptional thrift and industry to become a property owner."

Senator Calder urged that the Chamber of Commerce give its support to the program recommended to the senate to reduce construction costs and encourage the building of houses.

Combinations in the building industry which have exploited the public are liable to punishment under the Sherman anti-trust law and the Clayton act, Senator Calder said, but these laws do not cover combinations between employer and employees nor do they adequately supervise many trade associations.

Too much of the industrial strength of the United States has been expended in seeking foreign trade, Senator Calder declared.

"After the armistice was signed this country had visions of a vast foreign trade and commodities were produced and hoarded with resulting increase in prices until June last year it became apparent that these foreign markets would not materialize, and then prices fell rapidly."

Surplus labor and materials should be used "for the upbuilding of our own national plant and the building of more houses so that rents may be lowered," Senator Calder declared.

Government subsidy to meet the housing shortage is unwise the senate said.

Frank Kipp was showing a stranger from San Francisco around the city in his high-powered car, and when pointing out the Auditorium, Frank said:

"That's our big Auditorium, and Joe Grib built the whole thing in six months."

## AMERICAN FLYERS IN MEXICO CITY

San Antonio, Tex., Jan. 27.—H. M. Williams and Harry Thompson, two American flyers, have landed in Mexico City, after a record flight of five hours and 15 minutes from Juarez according to information here today. The flyers landed at Torreon for an additional gas supply. They staged an electrical display over Chapultepec Castle for president Obregon. The Mexican secretary of communications and public affairs will make a trip to Tampico from the capital in the airplane this week. The 11 year old son of Aviator Williams, was a passenger on the trip.

## OPPORTUNITIES OF FARM LIFE POINTED OUT AT INSTITUTE

An appeal was made by C. H. Swan of Apple Creek, Wayne County, to school pupils pointing out the opportunities presented to the younger generation who live on the farm and predicting success if they take the proper interest in the farm work in his address, "Why I Stayed on the Farm," which was made at the Wednesday session of the Farmer's Annual Institute held at the Caesercrest High School.

Opening at 9:45 in the morning the all-day session began with a song by the pupils of the High School. The morning session was of special interest to the school pupils and the two main addresses were directed to the interest of school work.

An interesting talk given by Mrs. Velorus Martz upon "Birds upon the Farm," with a large display of bird houses illustrating her talk. The main address of the afternoon session was a talk by Mrs. Martz, upon "The Care of the Sick in the Home," which brought out the need of absolute sanitation and the value of fresh air on the farm as well as in the city.

Mr. Swan gave a short address upon "Safety First Policies" in connection with the farm and other lines of work. The evening meeting was attended by about 200 people, rounding out a day of success for the institute. "Delivering the Goods," the need for a set purpose, and the will to be a success upon the farm at the present time, were clearly set forth by Mr. Swan. Plans for a community church, the combination of all the churches of the community which would insure cooperation throughout the community was introduced by Rev. G. C. Foltz, and "A Community Experience" by Mrs. Martz strengthened Rev. Foltz's statements.

Vocal numbers and recitations were given by the pupils of the school during the three sessions. Music was furnished by the Grange orchestra, and a vocal duet was given by Harry Pickering and Miss Gladys Bales, both of Paintersville was given during the evening.

## A. C. MESSENGER ELECTED PRESIDENT OF AUTOMOBILE CLUB

Dr. A. C. Messenger, was elected permanent president for the year 1931 of the Greene County Automobile Club at a meeting of the board of directors held Wednesday night.

Dr. Messenger has been serving as temporary head of the organization. T. H. Zell was elected vice president and S. M. McKay was named as treasurer of the Club by the Board. Frederick J. Slackford, new secretary of the Chamber of Commerce, will be asked to take the secretaryship of the Club temporarily.

Committees appointed Wednesday night were as follows: Publicity Committee, C. A. Weaver, J. W. Prugh and J. A. Chew; Entertainment, Ernest Beatty, Dr. A. C. Messenger and Leon Spahr; Emblem, N. N. Hunter, T. H. Zell and Kenyon Riddle. F. A. Jackson, who has been special membership solicitor will continue in that capacity.

The Club now has a membership of nearly 100 members. The board of directors is planning to hold another banquet and get-together meeting of the club soon, possibly next week.

## CABLE EXPERIMENTS SAID TO BE SUCCESS

London, Jan. 27.—Navigation of ships by means of sound signals from a cable laid at the bottom of the sea was demonstrated at Spithead in the presence of a number of naval attaches who had accepted an invitation from the British admiralty.

The cable, seventeen miles in length is laid from the entrance to Portsmouth Harbor out to the Warner Light on the Channel side of the Isle of Wight.

This has been designed to enable ships to find their way into the harbor or to an anchorage at night in foggy weather, or when all navigation marks are invisible.

By means of a dynamo installation on shore the cable is charged with high frequency current, and ships specially fitted with a receiving apparatus on the bridge are able to find their way by picking up the sounds which the cable gives out in Morse code.

Laid for over a year, the cable is now regarded as a permanent addition to the navigation facilities of the port.

The system, which is a British naval invention, was first used during the war, and now, owing to its great value to the mercantile marine, the Admiralty have made a general disclosure of the principles upon which it is worked.

A similar cable has been laid experimentally in one of the channels of New York Harbor, and these are the only two at present in use.

During the experiment excellent results were obtained, and tests showed that the cable could be effective up to forty nautical miles.

## FAMOUS LANDMARK MOVED TO BOSTON

Boston, Jan. 27.—A famous old landmark of Boston, the Charles Street M. E. Church, built in 1897 is now being moved ten feet, in accordance with the widening of Charles street. Built in 1897 dedicated August 5, 1897, "as a separate Church of Christ by the name of the Third Baptist Church of Boston" the structure is noted for its architecture of the Bulfinch period. The church was incorporated in 1839. Since 1877 the building has been owned by the First African Methodist Church. The church was built at a cost of \$27,000 and the cost of moving is \$40,000 of which the city will pay \$30,000 and the parish \$10,000.

## WILL PILOT AIRPLANE FROM GROUND

Paris, Jan. 27.—Interesting experiments are being made here by Capt. Max Boucher and his "pilotless" aeroplane. Captain Boucher succeeded during the war in making a machine fly 180 kilometers without any pilot. The stability of the machine is assured by the mobile wings and their large surface. An old army airplane was used on the experiments and the only alterations made were that the stabilizing cones were affixed to the wings as well as "air pockets" which prevent the machine descending too rapidly.

For the flight of 180 kilometers Captain Boucher put 190 pounds of deadweight in the machine and affixed to it a mechanical control outfit. The machine circled, looped and volplaned down to earth without the slightest mishap. The military authorities are now taking great interest in Captain Boucher's experiments and will undoubtedly approve of the machine for military purposes.

## FULL BLOODED SIOUX INDIAN VISITS SITE OF FORMER SHAWNEE CITY AT OLD TOWN

Old Chillicothe, the site of which is now occupied by the peaceful little village of Old Town, but where once roamed the Shawnee tribe of Indians, headed by that great chief, Tecumseh, and where such famous "paleface" pioneers as Simon Kenton and Daniel Boone participated in many of their adventures such as have been told in song and story, will live again in the printed book.

Through a visit paid to the site of Old Chillicothe by Dr. Charles A. Eastman, full blooded Sioux Indian of Northampton, Massachusetts, and an eminent physician. Wednesday, will the tale of the little town be retold. Dr. Eastman following his visit to the site has already laid plans for a book to be written concerning the early history and the trials of the frontiersmen who once walked where Old Town now stands.

Dr. Eastman was the guest at dinner Wednesday of Dr. and Mrs. W. A. Galloway of this city, following an address delivered at Dayton Tuesday. He is a graduate of Harvard Medical College and of Dartmouth. He is now known as an author and public lecturer, representing the Boys and Girls Scout movement on the platform at present. He has also been the central figure in negotiations between the government and the fast diminishing Indian tribes in the matter of treaties.

Dr. Galloway met Dr. Eastman through his daughter, Miss Elizabeth Galloway and the Misses Elizabeth and Mary Katherine Dadds, of this city, who spent last summer at Granite Lake Camp, in New Hampshire, a Girl Scout Camp, where Dr. Eastman was located. It was with much interest that he visited Old Town and heard again the story of the early history of the village, of the tribe of the Shawnees and of that famous old Chief, Tecumseh. So impressed was he with the possibilities of the subject, that he immediately promised to repeat the history of the site in narrative. Dr. Eastman left Wednesday night for the west.

## NO TOBACCO LEAGUE OPENS CONVENTION IN XENIA THURSDAY

The growth of the No Tobacco League in the nation, state and city, was shown in the addresses given at the afternoon session of the First No Tobacco League Convention, held at the First M. E. Church, Wednesday.

The meeting opened with the invocation led by Rev. B. B. Uhl, of the Lutheran Church, followed by a song service led by Charles F. Moore, National General Secretary of the organization, and a prominent musical author, in the interest of the fight against tobacco.

The support being gained in this city by the Anti Tobacco League, was reported by Miss Carrie L. Flatter in her report as General Secretary of the State. She said that schools, colleges, churches, various denominational organizations and granges have pledged their entire support to the work of the League, and plans are being made by the workers to enter these different civic organizations to wage a further campaign.

Dr. Bruce Fink addressed the meeting on "Botanical Poison that Hurts." Dr. Fink is a professor in the botanical department of Miami University, and is one of the four *Joson* men writing botanical articles. Through the inability of Vernon Reigel to be present at the convention, T. Howard Winters was sent as his representative. Mr. Winters who is connected in the State Department of Public Instruction at Columbus, working in connection with Mr. Reigel made a short address.

The afternoon meeting closed with a miscellaneous business session by the officers.

The evening meeting will begin at 7 o'clock, the devotionals being in charge of Rev. G. A. Scott of the Methodist Church. Because of Dr. W. A. McKeever's inability to be present the principal address of the evening program will be given by Dr. Bruce Fink. Another address, "Human Weeds" will be given by Dr. Fink, later in the evening.

School boys were warned against the tobacco habit, in an address by Dr. Bruce Fink, member of the faculty of Miami University, in connection with convention of the No-Tobacco League of Ohio being held Thursday at First M. E. Church.

## WIRE BED SPRINGS USEFUL TO RECEIVE FLASHES OF RADIO

Berkeley, Jan. 27.—Wire bed-springs in any room above the first floor make a satisfactory receiving station for wireless messages, declares Miss Barbara Burke, eighteen year old freshman student at University of California, who has just received a Government license as commercial wireless operator. She is a daughter of Professor J. D. Burke, graduate of the university and special advisor to Pres. David E. Barrows. Miss Burke started on her wireless work while a student at Hollywood High School and later worked in the radio division of the Bureau of Standards at Washington.

She intends to complete a literary and scientific course at the university and then take up wireless work.

## BLUEBERRIES STOLEN TO MAKE "BREW"

Eastport, Maine, Jan. 27.—A large quantity of canned blueberries for which Washington county is noted has been stolen from a warehouse at Mooseport.

Some are of the opinion that the culprits arrived in motor boats while others think that the robbery was the work of automobile thieves.

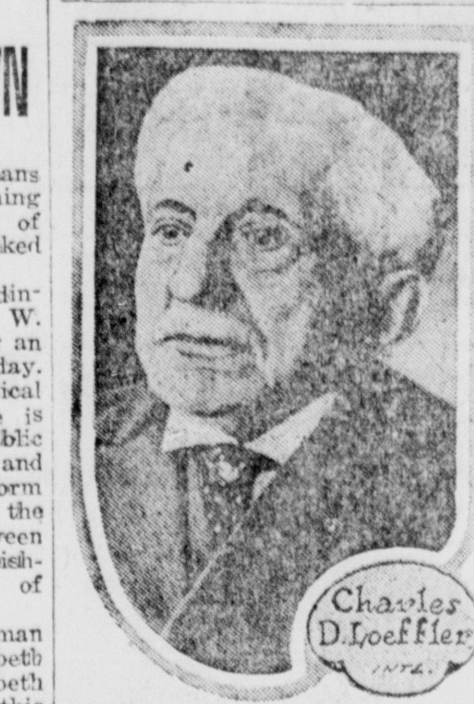

It is evident that some of the party were in an old house nearby for several days, and remained long enough to ferment some of the canned blueberries and supplied them with an abundance of "home brew."

Permentation is said to be possible by punching small holes in the cans and berries and allowing the cans to remain in the sun until the contents sour.

## DOORTENDER FOR 40 YEARS CELEBRATES HIS 84TH BIRTHDAY AT WHITE HOUSE

Washington, Jan. 27.—Still hale and hearty the oldest living White House doorkeeper has just quietly observed his eighty-fourth birthday. He is Major Charles D. A. Loeffler, U. S. A. retired, and his White House service ranges over a period of forty years as doorkeeper to the Presidential officers.

Major Loeffler was born in Germany, January 12, 1847, but came to this country as a youth and settled in

Pennsylvania. Like so many of the emigrants from this country, army life appealed strongly to him, and in 1868 he enlisted as a private in Troop H, of the Second United States Cavalry. The outbreak of the Civil War found his troop assigned to provost marshal duty in the City of Washington, and shortly afterward he was detached and assigned to the War Department as a dispatch bearer for

## SPORTS

## EXPECT DEFINITE ACTION INDICTED WHITE SOX PLAYERS

New York, Jan. 27.—What is going to happen to the indicted members of the Chicago White Sox? Persistent reports from Chicago indicated that the Cook county authorities have definitely pigeon holed the indictments on the ground that they are worthless and that if brought to trial the men would be acquitted have reawakened interest in their cases today.

Regardless of whether or not Chicago authorities bring the indicted players to trial organized baseball is expected to act and that with dispatch.

Judge K. M. Landis, who now rules the national pastime with absolute power will undoubtedly take official action regarding the status of the Sox players.

With the annual pilgrimages of major league teams to the training camps little more than a month away definite action is expected with in the next few weeks.

Several members of the indicted octet have been quoted frequently to the effect that they have unexpired contracts and expect to return to the game next season. Few members of the Chicago team—Weaver, Mullen, Rishen and Felsch—are prepared to make a legal fight if they are ousted, according to a Chicago attorney who represents them.

It is believed that baseball men will welcome such action. Charles A. Comiskey will be backed by organized baseball if action is brought against him by any of the players or if he seeks redress against them for damages done to his ball club and its reputation.

"O. B." has already set aside a fund of \$10,000 which has been placed at the disposal of Judge Landis "to clean up baseball and keep it clean."

## CENTRAL HIGH SCORED BY LEBANON PAPER

The following from the Western Star, of Lebanon, concerning the basketball game to have been played between Central High of this city and Lebanon High, and which was cancelled when the locals objected to unusual floor rules at the Lebanon court, is self explanatory:

"The Lebanon High-Xenia High game, scheduled to take place at Hartman hall Friday evening, was a sad disappointment to the capacity crowd which squeezed into the building to witness the contest. The visitors raised some technical points about the local floor not being 'regulation' and after arguing for forty minutes, played the 'baby act' and walked off the floor, while Referee Sylvester, awarded the game to Lebanon by a forfeit score of 2 to 0."

"Xenia contended that when the ball struck the walls which form the end boundaries of the local court, the referee should blow his whistle, call the ball out of bounds, and toss it up between the opposing players. No other team that has played here ever made such a request. Doubtless had it been granted the ruling would have had the tendency of slowing up the game, and it is slow enough with the ball out of bounds on the side."

GAME SCHEDULED  
The Beaver Cadets, of Alpha will play the Rocky Mountain quintet of Denver Colorado next Monday evening at Alpha. The Cadets play Clifton Thursday evening at the Knights of Columbus Hall in Alpha.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

## THINGS ARE LOOKING PRETTY WELL, THANK YOU, FOR OHIO REPUBLICANS.

Whatever may have been Governor Davis' shortcoming while Mayor of Cleveland, for which he was so sharply criticized in the last election campaign, he has certainly shown himself anxious to enforce all temperance laws since becoming Governor, even to suggestions for a special Prohibition Commissioner and assistants for this purpose. He is also backing the Legislature in all liquor enforcement laws. In these matters he is having the hearty approval of the temperance people of the state.

Just now the Legislature is giving special attention to this important subject, and as that body is so largely anti-liquor, things are moving quite lively in that direction. The disreputable bombast "Home Rule" (misrule) party has about turned up its heels. Thank God.

The Ohio Senate Tuesday passed the Miller prohibition enforcement bill by a vote of 33 to 4, the Hamilton County Senators alone voting in the negative. The body also adopted an emergency clause preventing a referendum election, by a vote of 32 to 5, the Hamilton County members being joined by Senator H. R. Endley, of Richland.

During the "conflats," pro and con on the general temperance subject, there was one by a "wet" member asserting that the law was observed in Cincinnati and contrasting the decency of the Queen City with the stories others told of how, under prohibition, mere boys, still children, were made drunk by use of intoxicants that were in the illicit traffic.

To counteract this Senator Miller read from records of six policemen in the Queen City suspended within two months for intoxication.

This Miller bill, passed by the Ohio Senate, will now go to the House. So you see something is being done. Have you noted that the Ohio Legislature, along with the general election landslide of last fall, is almost unanimously Republican? Stick a pin there, will you, when you approve of things done.

## LOOKING FOR TROUBLE.

When we say of some one that he looks for trouble, we mean that he goes about with a chip on his shoulder, a grievance to vent, a supersensitiveness to fancied slights, that is forever waiting to be wounded.

It would be well if looking for trouble meant the seeking and finding and relief of the world's distress and destitution. It would be well if it meant a constant watchfulness for those who are friendless and forsaken. For the want and the woe of those who suffer cannot come to our door and plead there. Sickness and weakness prevent. Too often, in matters of philanthropy, out of sight is out of mind. That is why it does not do for charity merely to keep office hours and expect the suppliants to present themselves. Trained investigators must be sent to the spot to discover what cries out to be done, and to do it.

That is the kind of looking for trouble that is a real help to the world. The other kind is a nuisance, a hindrance to business, a social and industrial affliction.

The man who has a tale of woe which he springs whenever he gets a chance—or makes a chance—never stops to reflect that the man to whom he tells his sad story may have a cross of his own to carry.

See this placid, gentle, benignant face of a good woman. Her countenance seems to mirror one day linked to another in ways that always have been ways of pleasantness and peace. Little do we know the battle, the suffering and self-denial, the anxiety and stress out of which this strong, calm character has come. She has known trouble—and that is why she seems to have room for everybody else's trouble—why her heart is big enough to hold not only her family, but her neighborhood, her country, her world. It is almost a pity to bring her any story of distress—it wrings her heart and moves her at once to some active measure of compassion.

Behold this man—how strong and capable and victorious he seems! Has he ever had to strive and agonize? Yes; his life has mainly been warfare, but his finest victory has been that he does not let it show; that all the setbacks and disappointments have not embittered him. He does not waste time or expend energy in complaining. He is too busy to look for trouble, to cultivate and to proclaim it in a world that has troubles of its own.

## FIRST ELECTRIC CAR WAS OPERATED ONLY 33 YEARS AGO.

The people of America are very insistent upon getting to a place quickly, and being comfortable while they are going. Men and women who can remember conditions forty years ago find much amusement in recalling the way people traveled in cities and towns then. It is laughable today to recall the time when the first horse cars operated in a community, but after the first surprise and joking had disappeared it was found that this mode of travel was really a great aid in getting around. But it was far from being the kind of travel the people desired.

Then, there was invented the electric motor. Then came the first electric car. In 1888, in Richmond, Va., the first electric car line was operated, on approximately six miles of track. In 1889 one hundred miles of electric lines had been built; in 1890, 1,200 miles were in operation, and today there are 49,484 miles in service.

Inefficient as the early systems were, compared with the present day equipment, they marked a mighty advance, and thereupon there started a new era in city development. From that early day to this, as there have been new discoveries in electrical science, the best brains of the electrical field have applied these new findings to the creating in America of what is today the best street car transportation in the world.

## SAVED!

## ALLEGES TUBERCULAR COWS WERE SOLD BY FOSTER B. HOUSTON

Columbus, O., Jan. 27.—That tubercular infected cows were sold to state board of administration by Foster B. Houston, South Charleston, member of the state agricultural board, is the claim made by Ed. ward M. Brown, testifying before the special house committee probing the charges made by Rep. C. C. Crabbe, London, majority floor leader, that milk from tubercular cows at the state prison farm, near London, had been served to patients at state institutions.

Brown, who has charge of the 240 cows at the prison farm, told the committee that the cows bought from Houston were placed in the herd on the prison arm.

There were 91 tubercular cows in the herd and were marked with ear tags, Brown said, but no effort was made to remove them from the cows that were not diseased. All the cows, he declared, drank from the same water trough.

After being informed that 300 gallons of milk had been served daily to 40 children, at the home operated by the state bureau of juvenile research and to 1900 patients at the Columbus state hospital, the committee ordered delivery of the milk stopped.

## JOHN B. MORRIS CALLED BY DEATH

John B. Morris, 78, former prominent Xenian, died Tuesday morning at 8:15 o'clock at the residence of his daughter, Mrs. Jennie Kicely, 2101 Wyoming street, Dayton.

Mr. Morris was a Civil War veteran, and a former member of Lewis Post, G. A. R., of this city. He lived here on West Second street until about 12 years ago when he moved to Dayton. He was formerly a street commissioner of this city, when such an office was a part of the local government a number of years ago. Mr. Morris was survived by his wife, Sarah, one daughter, Mrs. Kicely, and four sons, J. N. Morris, of Concordia, Kansas, T. A. Morris, of St. Paul, Minn., G. T. Morris, of Portsmouth, Va., and Edwin Morris of Dayton. Funeral arrangements have not been completed.

## FORMER PASTOR AT YELLOW SPRINGS DIES IN TEXAS

Word was received yesterday by relatives that Rev. W. A. Hutchison D. D., who was pastor of the Presbyterian Church at Yellow Springs several years ago, had passed away at La Porte, Texas, where he was wintering, and that interment will take place Friday at two o'clock p. m. at Franklin, Ohio, one of his former pastorates.

## WATTERSON TOO OLD TO DELIVER ADDRESS

Austin, Jan. 27.—Colonel Watterson, Louisville, declined an invitation to address a joint session of the Texas legislature, giving his age as the reason. He is spending the winter at Galveston and in reply to the invitation, said he appreciated the honor but felt forced to decline because of his advanced years.

## MILK PRICE REDUCED

Chicago, Jan. 27.—A reduction of 15 cents a hundred in milk prices paid to producers in the Chicago district will become effective Feb. 1, it was announced by W. J. Kittle, superintendent of the Milk Producers' Co-operative Marketing Co. Mr. Kittle said that by an agreement signed with Chicago dealers the February milk price was fixed at \$2.35.

## With The Women of Today

Washington photographers have been busy for some time getting pictures of Mrs. Halbert H. McCluer of Kansas City. Mrs. McCluer is one of the most photographed women in the capital at present. The reason for the unusual interest in her is the fact that she is the first woman in the history of the country to deliver an electoral vote to the vice president. Mrs. McCluer delivered the electoral certificate vote from Missouri to Vice President Marshall. She then visited the headquarters of the National Woman's Party.

## JAMESTOWN

Mrs. W. H. Rockhold was the hostess to the Rural Improvement Club on Wednesday afternoon. Responses to roll call were: "A New Year's Revolution," Mrs. Braden Smith prepared and read a splendid paper on "Book Review," which was discussed by the members of the club. Mrs. Rockhold was assisted in the serving of a delicious refreshment course by Mrs. J. H. Turner. The usual social hour was very much enjoyed. The next hostess will be Mrs. A. G. Paulin.

Mr. and Mrs. J. A. Thuma have gone to Winchester, Ind., to visit the former's sister Mrs. Curtis Shirling and family. They will probably visit Tom Thuma at Evansville, who is manager of a hotel in that city.

Mr. and Mrs. O. F. Reeves will entertain the "Double Eight" club on Thursday evening with games and music and light refreshments will be served.

Mrs. Urah D. Paulin spent the first of the week visiting with Mr. and Mrs. M. H. Rodgers and attended the Ross Township Farmers' Institute Monday and Tuesday.

Mrs. Frank Cummings who made her home with her daughter Mrs. Arthur Agnor was brought to Jamestown for burial having passed away on Friday.

Mrs. N. N. Hunter has returned home from Denver where she made a most delightful visit of seven weeks with her parents Mr. and Mrs. Albert Wickersham. Mr. Hunter went to Denver with her but returned before she did.

Ralph Glass has moved into the parsonage of the United Presbyterian church which was vacated by the Rev. W. M. Lorimer on leaving Jamestown. The church will not need parsonage before the first of March when Mr. Glass gets possession of his own property.

Mr. William H. Bullock has been very ill for several days.

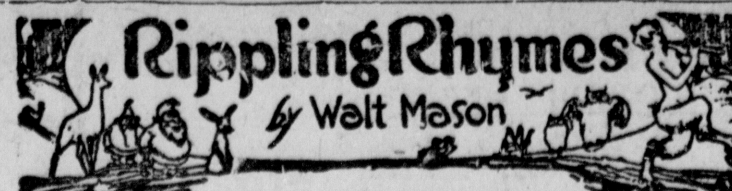

On the 6th of February the Church of Christ will begin their evangelistic meetings. J. Frank Harrison and wife will have charge of the music as well as to do personal work. All the other churches of the town are invited most cordially to attend these series of meetings.

## DENTAL TEACHERS MEET.

Indianapolis, Jan. 27.—Dr. Guy S. Millberry of San Francisco was elected president of the American Institute of Dental Teachers. Other officers chosen are: Vice-President, Dr. A. H. Hipple, Omaha; secretary, Dr. Abram Hoffman, Buffalo; executive board members, Dr. E. D. Coolidge, Chicago; Dr. A. E. Webster, Toronto and Dr. H. L. Wheeler, New York.

## PASTOR'S BAIL IS \$20,000.

East St. Louis, Ill., Jan. 27.—Guy Kyle, former rector of the Free Methodist Church at Mt. Vernon, was arraigned before United States Commissioner Hooker on a charge of having stolen mail pouches containing \$189,000 at Mt. Vernon, January 14. He waived preliminary hearing and was remanded to jail at Mt. Vernon. Bail was fixed at \$20,000.

## MIDWINTER SORROW.

Alas, there's trouble everywhere, according to the daily news and countless cupboards now are bare of pumpkin pies and oyster stews, and children wail and tear their hair because they haven't any shoes. And we might preach to those who lack the pies that human critters need, reminding them how, some months back, they cut a gorgeous swath, indeed, and how we urged them then to pack in brine the kopeck and the seed. But preaching is an empty graft when human innards madly ache; there always is a mighty raft of sermons when kids call for cake, when poor folks yearn to sit abaft a large and sirloin steak. And so we'll brighten up the lives of those who walk knee deep in woe, and stake the poor gents and their wives from our abundant stack of dough; the Christmas spirit still survives in all of us, we'd have you know. We'll spring our platitudes when next prosperity around is seen, when workmen are not perplexed by absence of the good long green; a pie is better than a text when meals are few and far between.

## CHARLES F. MURPHY—AND WHISKERS

proves. In fact, Mr. Murphy is one of the most cleanly shaved men in New York city. Barbershop staticians therefore will have some little task in trying to figure out how long Mr. Murphy intends to remain boss of Tammany Hall.

## New York, Jan. 27.—The Tam-

many Tiger may have whiskers, but as to Charles F. Murphy—try and find 'em. And until his whiskers grow down to his knees, Boss Murphy has no thought of giving up the leadership of Tammany Hall. The newspapermen interviewed Mr. Murphy recently upon his return from a three weeks' vacation. Some job—interviewing Murphy, and not knowing what else to ask they stuck him with: "Are you going to give up the Tammany leadership?" "Ha, Ha," replied Mr. Murphy. "You know what Sam Green used to say, 'I'll give it up when my beard grows down to my knees.' Some days have passed since the remark but Murphy's beard remains so short he still wears a necktie as the picture proves. In fact, Mr. Murphy is one of the most cleanly shaved men in New York city. Barbershop staticians therefore will have some little task in trying to figure out how long Mr. Murphy intends to remain boss of Tammany Hall.

## DECLARES CHARACTER REVEALED IN WAY A PERSON BREATHE

Paris, Jan. 27.—"Show me how you breathe and I will tell you what you are," is a new theory advanced by Doctor Maingot, of the French Academy of Medicine, who says he can tell a person's character by X-raying his or her respiratory organs. Dr. Maingot states that handwriting often reveals a person's character, but points out that handwriting is taught and is therefore the fruit of one's education while breathing is one of the natural gifts of life.

In breathing, according to the French doctor, inspiration spells activity and expiration that of rest. He has submitted various patients to his X-rays and on the spot has been able to tell them their character and their faults. To a young man of twenty-two he said: "You are timid and often undecided. You have a great difficulty in getting out of bed." To an older person he said: "You are sentimental and easily moved and yet you are capable of heroic actions." In both cases the patients realized the truth of these statements.

Dr. Maingot is attempting to introduce "Phrenoscopia" at the court and asserts it would be useful in revealing the character of criminals and witnesses.

## FORMER POLICEMAN HELD

East Liverpool, Jan. 27.—Police arrested Charles Hutton, former policeman, and his brother-in-law James Brighthouse, as suspects in the hold up of W. H. Okie, a grocer at

Brilliant Ohio, last night. They were taken to the Jefferson County Jail at Steubenville.

## TWO FORD CARS GIVEN

# ILLUSTRATED TALK ON SCHOOL NEEDS GIVEN IN XENIA

"Better Schools for Ohio," will be the subject of an illustrated talk by Mrs. Edith McClure Patterson of Chicago, at Xenia Opera House, Friday evening, Jan. 28. The speaker will use stereoscopic slides to make clear the points brought out in her talk. This meeting has been arranged by Supt. C. A. Waltz. The program will start promptly at 8 p. m. Admission is free.

At the recent meeting of the Ohio Branch of the National Congress of Mothers and Parent-Teacher Associations held in Dayton, the fact was brought out that Ohio ranks twelfth in education. Resolutions were adopted by the association pledging its members to work for better schools in Ohio.

The campaign to put this program

- Parents and teachers are pledged to work for the following:
1. More teachers.
  2. Better buildings.
  3. More money for education.
  4. Active support of people.
  5. Visual education of people.
  6. Best methods of teaching.
  7. Adequate pay for teachers.
  8. Better training for teachers.
  9. Progressive people in charge of schools.

Mrs. Edith McClure Patterson

into effect is already under way. The successful candidates in the recent election are being urged to use their influence to bring about the change. It is hoped that before many months have passed, Ohio will not rank twelfth, but first in education.

Visited Schools in 27 States

Mrs. Patterson was one of the chief speakers at the recent educational conference. Her talk attracted so much attention that the Xenia

## A Stubborn Cough Loosens Right Up

This home-made remedy is a wonder for quick results. Easily and cheaply made.

Here is a home-made syrup which millions of people have found to be the most dependable means of breaking up stubborn coughs. It is cheap and simple, but very prompt in action. Under its healing, soothing influence, chest soreness goes, phlegm loosens, breathing becomes easier, tickling in throat stops and you get a good night's restful sleep. The usual throat and chest colds are conquered by it in 24 hours or less. Nothing better for bronchitis, hoarseness, croup, throat tickle, bronchial asthma or winter coughs.

To make this splendid cough syrup, pour 2 1/2 ounces of Pinex into a pint bottle and fill the bottle with plain granulated sugar syrup and shake thoroughly. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way you get a full pint—a family supply—of much better cough syrup than you could buy ready-made for three times the money. Keeps perfectly and children love its pleasant taste.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its prompt healing effect upon the membranes.

To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

## Brownatone Ends Gray, Streaky Hair

Ladies, in society, no more tolerate gray, streaky hair than they do unbecoming gowns. Neither can the business girl or person in any walk of life who would keep up-to-date.

The proven, tested and absolutely harmless way to tint gray, faded, streaked or bleached hair is with "Brownatone."

with "Brownatone." This one bottle, easy to apply that gives distinct shades from lightest golden to the deepest bronze or black.

"Brownatone" tints instantly and will make you look ten years younger overnight. No messy, dirty pastes to bother with—no waiting for results.

All druggists recommend "Brownatone" on a money back guarantee—50c and \$1.50. Two colors—shading from "Golden to Medium Brown" and "Dark Brown to Black."

delegation invited her to come to this city and talk to the local people interested in getting better schools in Ohio for men, women and children.

During the past few months she has travelled from the Atlantic to the Pacific, and from Vancouver B. C., on the north to Tia Juan, Mexico, on the south. She visited the most modern schools in 27 states and interviewed prominent men and women who are helping shape the educational systems of American schools. She studied the methods of teaching, courses of study, and the types of buildings used in many progressive cities.

Her talk is about the progressive things she learned on her trip. The slides illustrate the up to date educational methods followed by other cities. They contain many valuable suggestions which Ohio Schools can profitably adopt.

Mrs. Patterson is especially fitted for the important work she is doing, being a graduate of Lasell Seminary and the Boston School of Social Service. At the present time she is taking special work at the University of Chicago and also studying educational methods at first hand on her travels.

Citizens' duty to improve schools. "It is the duty of every citizen to help make Ohio first in education," said Mrs. Patterson. "The condition of our schools is a disgrace. At the present time 55 schools in southern Ohio are closed because of lack of teachers. But 76 per cent of Ohio children of school age are in school. The minimum salary for teachers in this state is \$744. In Washington D. C. it is \$1,052. Montana is spending \$81.68 per pupil while we spend but \$48.01.

"Ohio must have better schools. In many places out-of-date teaching methods are used. Subjects of little value to the student are taught. Better buildings and more up-to-date equipment are needed. There should be more practical work and

## OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

## Cured His Piles

Now 88 Years Old But Works At Trade of Blacksmith and Feels Younger Since Piles Are Gone.

The oldest active blacksmith in Michigan is still pounding his anvil in the town of Homer—thanks to my internal method for treating piles.

Mr. Jacob Lyon, Homer, Mich.

I wish that you could hear him tell of his many experiences with ointments, salves, dilators, etc., before he tried my method. Here is a letter just received from him:

Mr. E. R. Page, Marshall, Mich.

Dear Sir: I want you to know what your treatment has done for me. I had suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish and I hope it will lead others to try this wonderful remedy.

Yours truly,  
J. L. LYON.

There are thousands of afflicted people suffering with piles who have tried the one sensible way of treating them. Don't be cut. Don't waste money on foolish salves, ointments, dilators, etc., but send today for a Free Trial of my internal method for the healing of Piles.

No matter whether your case is of long standing or recent development—whether it is occasional or permanent—you should send for this free trial treatment.

No matter where you live—no matter what your age or occupation—if you are troubled with piles, my method will relieve you promptly.

This liberal offer of free treatment is too important for you to neglect a single day. Write now. Send no money. Simply mail the coupon—but do this now—TODAY.

**FREE PILE REMEDY**

## FINE FOR RHEUMATISM

Musterole Loosens Up Those Stiff Joints—Drives Out Pain

You'll know why thousands use Musterole once you experience the glad relief it gives.

Get a jar at once from the nearest drug store. It is a clean, white ointment, made with the oil of mustard. Better than a mustard plaster and does not blister. Brings ease and comfort while it is being rubbed on!

Musterole is recommended by many doctors and nurses. Millions of jars are used annually for bronchitis, croup, stiff neck, asthma, neuralgia, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia). 35c and 65c jars; hospital jar \$3.00

MUSTEROLE

to open up his Hill street park. He says the opening will probably take place on Saturday, when there will be a matinee in the afternoon at which time his famous kangaroos will give an exhibition. There will be good fire should the weather continue cold.

A fine audience enjoyed "Rip Van Winkle" at the Opera house last night. It was of course, the best attraction of the season. Mr. Thomas Jefferson presents the well known character in every much the same style as his illustrious father that, in itself it the highest praise. The audience was fairly appreciative, and Mr. Jefferson was called before the curtain after the first act.

## New Hair Growth

BALDNESS halted, falling hair stopped, new hair regrows. Many such reports—women, men, all ages. Get full box of KOTALKO at any drug store. Or send 10 cents, eleven or a stamp, for PROOF box, to KOTALKO OFFICE, 84-84, Station X, New York, N. Y.

KOTALKO FOR THIN HAIR

## LAXATIVE for Aged People

**THE BANE** of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentlest laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

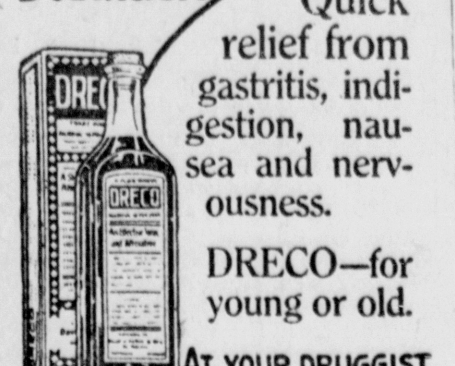

## Chamberlain's Tablets

## TO SUCCEED HUSBAND

Nashville, Tenn., Jan. 27.—Election of Mrs. Anna Lee Worley Democrat, to succeed her husband the late Parks Worley, in the State Senate was indicated in returns. She would be the first woman to hold a seat in the Tennessee Legislature. Her husband, an antisuffrage leader, died at the beginning of the present session.

## DRECO

For a weak Stomach Quick relief from gastritis, indigestion, nausea and nervousness.

DRECO—for young or old. AT YOUR DRUGGIST

**BOLIVIA ELECTS PRESIDENT**

Washington, Jan. 27.—The Bolivian legation was notified in dispatches from La Paz that Bustista Savendra had been elected president of Bolivia by the constitutional assembly and would assume office Jan. 27.

**No Soap Better For Your Skin Than Cuticura**

Prepared each (Soap, Ointment, Talcum) free of Cuticura Laboratories, Dept. 2, Malden, Mass.

## Rub Backache Away.

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica or maybe from a strain, and you'll get blessed relief the moment you rub your back with soothing, penetrating "St. Jacobs Oil." Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin. Limber up! Don't suffer! Get small trial bottle from any drug store and after using it just once, you'll forget that you ever had backache lumbago or sciatica, because your back will never hurt or cause any more misery. It never disappoints and has been recommended for 60 years.

## Do You Need More Money?

If you need more money, this plan will work for you. First get health, then work, think, and stick. Many work but don't think. Many think but don't work. Many work and think, but don't stick. It takes all three.

To get health, get your backbone in alignment. Health is matter of spinal mechanics. It is simple and sensible. The chiropractor by aligning the movable joints of your spine, frees the spinal nerve openings, removes the pressure upon spinal nerves, and thus the cause of disease is corrected. When the conditions of health are restored, disease disappears. This means your disease too.

Chiropractic spinal adjustments are restoring health to sufferers from such seasonal diseases as colds, coughs; headaches, influenza, tonsillitis, bronchitis and pneumonia.

**NO CHARGE**

Consultation is without charge or obligation.

## SON OF FINANCIER LEAVES BULK OF HIS FORTUNE TO YOUNG ACTRESS

New York, Jan. 27.—Miss Dorothy Lucille Whiteford, twenty-two-year-old actress, has been named as principal heir of Joseph J. Ryan, Ryan youngest son of Thos. Fortune Ryan, New York financier, bequeathed \$100 to his widow, Nannie Morse Ryan. Attorneys estimated the Ryan estate at "less than \$100,000." Miss Whiteford's lawyer said his client's legacy would be "in the neighborhood of \$60,000."

If Miss Whiteford was employed in any capacity by her benefactor such relationship was not defined in the will.

### Also Gets Insurance.

In addition to naming Miss Whiteford as residuary legatee, the actress will get \$10,000 of the \$55,000 insurance carried by Ryan. His two children—Elinor M. and Joseph J. Jr.—are awarded \$5,000 each of the insurance policies when they attain the age of twenty-five. The Ryan children are with their mother in Rome, Italy.

The will, in giving \$100 to Mrs. Ryan, explains:

"I make this small bequest to her inasmuch as ample provision has been made for her support and the support of our children during her lifetime by a separate agreement entered into between us, dated sixth of May, 1915."

Aside from bequests to his widow, children and friends, Ryan provided that the residue of the estate "including all that part he is entitled to in the estate of his late mother Mrs. Ida M. Ryan under her will, shall go to Miss Dorothy Lucille Whiteford."

The document stipulated that anyone contesting the provisions of the will shall forfeit the legacy provided for him.

The Ryan will was dated November 24, 1919. Miss Whiteford was said at her home and by her attorney, John Robinson to be at Rockledge, Fla. She went there, Mr. Robinson added, on January 3. She is the daughter of John H. Whiteford, a toy manufacturer.

Miss Whiteford according to her mother has resided with her parents and five sisters for several years. Her acquaintance with Ryan is said to date back to 1916. Mrs.

Whiteford said of her daughter:

"Dorothy was Mr. Ryan's dear friend. In fact, she was his only close friend. She was never employed by him, but was a sort of confidential secretary to him. She was with him when he died."

### Ryan's War Record.

Ryan died at his apartments in the Ansonia hotel, November 20, last. He was thirty years old. He had resided there since his discharge from the army a year before.

In press accounts of his death, Miss Whiteford was not mentioned as among those who were at his bedside. His widow, daughter of Alexander Porter Morse, Baltimore attorney, was advised of Ryan's death by cable. She was then in Rome.

According to friends of Ryan, who knew Miss Whiteford when she was a member of the "Royal Vagabond" company, she is unusually vivacious, pretty and accomplished.

## GAME COCKS GO INTO FRYING PAN

Canton, O., Jan. 27.—When is a cock fight not a cock fight? When the sports eat the belligerents.

All of which brings forth explanations of wrath from some two hundred lovers of this sport who journeyed here from Pittsburgh, Cleveland, Akron, Mansfield and various other northwestern Ohio towns.

A big cock fight was scheduled in a secluded building near Meyers Lake. It had once been a beer garden. An eighteen foot pit had been constructed, seats arranged and all was set for a night of entertainment with plenty of betting. But Sheriff Cathon got next. About eight o'clock the sheriff and a corps of deputies swooped down on the place but they arrived a trifle too early. The fighting had not yet started, although there was a crowd of more than 200 fans. There were several game birds in sight. After hanging around a while, the savory order of cooking chicken came from an improvised kitchen. The sheriff came to the conclusion that the cocks had gone into the pot instead of the pit and that the fight was off, so he withdrew his forces. He returned later in the night but the place was deserted, so there was no cocking main, at least at "that" place.

The Ryan will was dated November 24, 1919.

## DEATH SUMMONS IS RECEIVED BY CLARK COUNTY WEDNESDAY

James Hatfield, well known resident of Clark county, who at one time served two terms in the Ohio general assembly as representative from that county, died Wednesday afternoon at his residence, one and one half miles north of Clifton, on the old Clifton road, at the age of 76 years.

Mr. Hatfield served during the Civil War with the Eighth Ohio Cavalry. He is survived by his widow, Mrs. Harriet J. Hatfield, and one son Charles Hatfield, at home and two daughters, Mrs. Jesse Stretcher and Mrs. Julia Anderson, both of Yellow Springs. One sister, Mrs. Sara Ann Laird of Iowa also survives.

Funeral services will be held at the residence at two o'clock Friday, and burial will be made at the Fernel cemetery, Clifton.

## SWEAR OFF TOBACCO

"No-To-Bac" has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a cigarette, cigar, pipe, or for a chew, just place a harmless No-To-Bac tablet in your mouth instead, to help relieve that awful desire. Shortly the habit may be completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

## JUDGE INSTRUCTS HUSBAND TO GUARD HOME AS CAVE MAN

Akron, O., Jan. 27.—"A hickory club, wielded by a strong right arm is the best means of dealing with the man who invades another man's home and robs him of his wife's affections."

This was the opinion handed down by Judge H. C. Spicer, of Domestic Relations Court, after he had listened for an hour to the recital of how Thomas Korneluk sought to drive, by law and gun route, John Novikis from his home.

Novikis said Korneluk first had him arrested for beating his wife and that a justice in the southern part of the county sent him to the work house for six months. He was released in nine days and came home, only to be ordered out of his own place on threats of being shot to death. Novikis told the court Korneluk informed him that hereafter Mrs. Novikis would be his wife.

"You go home and get a hickory club and drive him away," was Judge Spicer's parting advice.

## Paved Streets in Our American Cities Will Encircle Globe More Than Twice

Modern city streets stand up for years under heaviest traffic.

If all the city paved streets in the United States were placed end to end and the streets were all of a uniform width of twenty-one feet, they would reach twice around the globe and 5,000 miles further.

More than one-tenth of all this city paving is to be found in New York. More than one-fifth is in the three largest cities—New York, Chicago and Philadelphia.

New York, with more than 41,000,000 square yards of paved streets, leads all municipalities. Chicago follows closely with 38,430,000 square yards and next is Philadelphia with 22,610,000 square yards. Los Angeles, the tenth largest city, has the fourth largest amount of street paving with 21,515,000 square yards. Then in order follow Boston, Pittsburgh, Cincinnati, Baltimore, Portland, Ore., Kansas City and Washington.

A complete census of city paving just compiled shows that the asphaltic types, comprising 55 per cent of all pavements higher than waterbound

macadam, have crowded out the rigid block types of pavement and are favored in present practice in comparison with unsurfaced Portland cement concrete. Among the asphaltic types sheet asphalt shows the largest percentage, although asphaltic concrete, including bituminous and certain other specialized types are rapidly finding favor. Sheet asphalt includes a yardage more than double that of brick, its nearest competitor.

An explanation of the predominance of sheet asphalt and asphaltic concrete in city paving is indicated in service records on various types of pavement as reported by twenty-five leading cities. The census includes a sheet asphalt street laid in Washington, D. C., in 1873, and the remainder laid in periods from 1880 to 1919.

For example, Lieut. Col. Charles W. Kutz, Corps of Engineers, United States Army, Engineer Commissioner, District of Columbia, reports that in the District the average age of asphalt streets resurfaced in 1910 was 25.8 years; in 1911 was 24.5 years; in 1912 was 25.8 years; in 1913 was 26 years; in 1914 was 28.5 years; in 1915 was 28 years; in 1916 was 29.6 years; in 1917 was 27 years; in 1918 was 28 years; and in 1919 was 26.7 years.

Lieut. Col. Kutz also reports that the cost per square yard of asphalt pavement repair per year has been: 1913, 2 cents; 1914, 1.9 cents; 1915, 1.9 cents; 1916, 1.8 cents; 1917, 1.5 cents; 1918, 1.7 cents.

States are today profiting by the experiences of the cities. The same types of paving which have proved the most economical and the most substantial in the city are the types which are now being satisfactorily used in the construction of country highways.

## TO-MORROW & SATURDAY

# SUITS \$18.00 O'COATS

Values up to \$40      Can Fit Any Man      See Them on Display

The stamp of approval demonstrated by the most liberal patronage leads us to believe that the values offered at this time are unequalled.

Tomorrow and Saturday mark the final wind-up of the most successful clearance we have ever had—while we have sold many hundreds of dollars in excess of what was expected there still remains some real live bargains at this attractively low price.

### Suits

All wool suits, every imaginable pattern, color fabric, styles for men, young men, big men, small men, real stout men or the slender fellow. Every one at less than 1/2 price.

Values up to \$45

Blue serges included

Sizes 32 to 46

# \$18

Saturday is your last chance.

### O'Coats

These overcoats marked low for quick sale have created quite a stir. There remain some wonderful bargains, sizes still unbroken. We can fit any man no matter how large or small at less than 1/2 price.

Values up to \$40

Sizes 32 to 46

# \$18

Saturday is your last chance.

## Men Smile When They See These Shirts

They'll be carrying them away in stacks.

## 25 Doz. Fine Dress Shirts

That were manufactured to sell at \$3.00 and \$4.00. Numerous fabric patterns that will please the most critical purchaser, sizes 14 to 17.

# \$1.65

# ELECTRICAL WONDERS FOR NEW U. S. BATTLE CRUISERS MODELS OF MODERN EFFICIENCY

TYPE OF NEW U. S. BATTLE CRUISER WHICH WILL CARRY MOST POWERFUL ELECTRICAL PLANT EVER INSTALLED ON A SHIP.

## Electric Apparatus for Propulsion Most Powerful in World, Says Navy's Chief Engineer.

Conceive a power plant, consisting of four turbine generators, capable of creating 180,000 horsepower or enough electric energy for example to supply the needs of a city about the size of Boston, Mass., conceive eight electric motors, 15 feet high, weighing about 200 tons each, three miles of electric cable weighing 221,500 pounds and sixteen huge oil fired steam boilers, and one will have a partial idea of what it takes to drive one of the Navy's new line of six battle cruisers now building.

Then consider the ship as a bulk of steel and armor-plate weighing 43,500 tons and think of this mass being driven through the water at the express rate of nearly 40 miles per hour and you have a slight conception of the power of one of these new vessels.

### Most Powerful in World Says Engineer of Navy

These are some of the big outstanding electrical features of the country's new first line of national defense which have caused the chief of the Bureau of Engineering of the Navy to claim that the electrical propulsion of the six battle cruisers represents by far the greatest horsepower per shaft that has ever been projected in any marine installation irrespective of the type of motive power.

Bear in mind now that this great power, tremendous as it is used only for the actual propulsion of the vessel and that 2 plants each of about 2,000 H.P., of additional energy are also carried with which to operate the hundreds of electrical devices on board ship—electric lights, boat winches, cranes, steering gear, anchor windlass, fans, blowers, searchlight, signals, telephones, laundry equipment, machine shop, carpenter shop, kitchen apparatus, ammunition hoists, firing apparatus etc.

The weight of the electrical propelling apparatus is about 1,400 tons or only 1-30th of the total weight of the ship. The total weight of all electrical generating and control apparatus will be 1,700 tons.

### Untold Strength and Power

The strength of one of these new electrical monsters may be illustrated in yet another startling way. They are equipped with 4 propellers 15 feet in diameter, higher than two men and weighing many tons each. At full speed these propellers revolve against the tremendous resistance of the water at a speed of 320 revolutions per minute or more than 5 revolutions per second which require 180,000 h. p.

The following statistical table reviews the main features of the battle cruisers:

Length	.....374 feet
Beam	.....105 feet
Draft	.....31 feet
Weight	.....43,500 tons
Speed	.....33.6 knots
No. of propellers	.....4
Shaft Horsepower	.....180,000
Main turbo-generators	.....4
Main Propeller motors	.....8
Auxiliary turbo generators	.....6
Boilers	.....16

The names of the ships will be: Lexington, Constellation, Saratoga, Ranger, Constitution and United States.

The design of the electrical machinery for four of them is now progressing under the supervision of W. L. R. Emmet, consulting engineer of the General Electric Company. Mr. Emmet being the same man who advocated the principles of electric drive, was instrumental in its adoption by our government and who designed the first electric drive installation in the navy.

### The New Battleships

In addition to the new battle cruisers mentioned, the Navy is also building six battleships which will have a shaft horsepower of 60,000 double existing installations for a battleship and will contain electric features quite as remarkable in their way as those proposed for the battle cruiser class.

The main characteristics of the new battleships are as follows:

Length	.....684 feet
Beam	.....106 feet
Draft	.....33 feet
Weight	.....43,000 tons
Speed	.....23 knots
No. of propellers	.....4
Shaft H. P.	.....60,000
Main turbo generators	.....2
Main propeller motors	.....4
Aux. turbo generators	.....8
Boilers	.....16

These ships will be known as the South Dakota, Indiana, Montana, North Carolina, Iowa and Massachusetts.

### BANDITS KILL POSTAL CLERK

Dallas, Texas, Jan. 27.—George W. Street, clerk in a postoffice, station, who was shot by bandits when the station was robbed, died yesterday.

## SENATOR FALL NAMED AS POSSIBILITY FOR CABINET POSITION

Washington, Jan. 27.—While President elect Harding is vacationing in the Florida sunshine, he is by no means giving all his attention to his golf clubs and the fish in Indian river, according to information drifting northward into senatorial circles today. In between tee shots and fish the president elect is giving serious consideration to plugging up the few remaining cabinet holes.

It would surprise few of the colleagues in the senate if Senator Albert B. Fall of New Mexico, returned to Washington a cabinet pledge. The New Mexico senator is now sojourning on the Indian river houseboat, where he went at the earnest solicitation of the president elect.

It is generally felt by Senator Harding and a number of prominent Republicans in the senate that there should be one sitting Senator chosen for a cabinet post. They believe it would do much toward promoting a cordial relationship between the White House and the capitol to "have the senate represented." One of the things, it has been pointed out, that made in the Wilson administration experiences tough sledding at the capitol at times was the fact that there was very little personal relationship between Mr. Wilson and his advisors and the senators of the hill. It is the desire of the Republicans to prevent any such recurrence by having some representation at the other end of the avenue.

Senator Harding is known to be having difficulty in choosing a man for the job as secretary of the interior. Logically, the posts calls for a western man, familiar with the conditions and the needs of the west, and it is in connection with this portfolio that Senator Fall is reported to have been summoned to join the houseboat party.

## TWENTY YEARS AGO

Baggage Master Henry Evers was able to report for duty at the Pan Handle office this morning for the first time in two weeks, having been badly disabled by the fall of a heavy trunk on his foot and from the effects of which he has not yet fully recovered.

Mr. Watt Frame went to Cincinnati today where he will transact business with the interstate home office.

There was a busy time about the Pan Handle restaurant today when a special excursion train of fourteen coaches came through about noon bearing the United Mine Workers from Indianapolis and St. Louis, to the Columbus convention. Lunch was served the miners at the depot restaurant and the wants of the big crowd were attended to in fine shape.

The month of January has been one of the quietest in police circles since Mayor Linkhart has been dispensing justice to the offenders. There were only fifteen arrests made so far, and these were plainly for minor offenses.

### 15 KILLED IN WRECK.

Abermule, Wales, Jan. 27.—Fifteen persons, 11 of whom were passengers, were killed in a railway wreck yesterday. Many others were injured.

## DEBTS OF WORLD'S NATIONS REACH STAGGERING TOTAL OF \$300,621,609,000

New York, Jan. 27.—O. P. A.ustin, of the National City Bank, declares that the national debts of the nations now amount to the staggering sum of \$300,621,609,000. The paper currency of the nations, including Russia, now amounts to \$82,701,600,000, according to the same authority.

In 1914, before the World War, the national debts amounted to \$43,889,000,000 and the paper currency totaled only \$7,527,000,000. The issue of paper currency by the Soviet Government of Russia is estimated at \$34,000,000,000.

The financial authority Cadmus asserts that only 5 per cent of gold is behind the paper money of Europe.

## VETERAN OIL WELL SHOOTER HANDLED DANGEROUS NITRO SUCCESSFULLY FOR YEARS

Bradford, Pa., Jan. 27.—Amos S. Brown, nitro-glycerine maker and shooter, who has stood at the brink of eternity for thirty five years or more, has just died in peace and not in pieces, as happens most handlers of nitro-glycerine sooner or later.

Nitro-glycerine is one of the most powerful explosives and goes off on the slightest provocation and sometimes without being provoked. A man around this explosive never knows what minute he is going to be blown to bits. Generally speaking, all that is left is a big hole in the ground and the memory of the man that was but isn't any more.

Getting back to Brown. He had lived most all his sixty-nine years around Bradford. Every old-timer in the oil fields, as well as the younger generation, knew him.

For the past twenty five years he has been employed by the various torpedo and glycerine companies in the capacity of shooter, including the American Glycerine Company, the Kane Torpedo Company and the du Pont Powder Company. Ten years previous to that time he manufactured glycerine for the Rock Glycerine Company.

Mr. Brown seemed to possess a charmed life, for during his service in his dangerous profession many fellow workers were blown to atoms while engaged in their labors. He was a man highly esteemed in the oil country. The passing of this veteran shooter, known far and wide, will be keenly regretted.

## FUNERAL IS HELD ON WEDNESDAY

Funeral services for Mrs. John B. Lucas were held Wednesday afternoon at 1:30 at the late home on the Dayton pike, and were in charge of Rev. Charles P. Prouditt of the Second United Presbyterian church. The pallbearers were George, Thornton, Carl and Samuel Andrews and Joseph Hutchison and Weir Cooper. Interment was made at Woodland cemetery.

### OFFICIALS' PAY TOO LOW, SAYS SENATOR

Washington, Jan. 27.—Senator Sherman, Republican, Illinois, who retires March 3, holds that cabinet officers and members of Congress can't live comfortably on their salaries of \$12,000 and \$7,500 respectively. He introduced a bill to increase the pay to \$15,000 and \$12,000.

# CEDARVILLE FIVE TO TAKE TRIP: WILL PLAY AT HOME JAN. 28

The varsity basketball team of Cedarville College leave Thursday for a trip to the north western part of the state, meeting Bluffton College, Thursday at Bluffton, O., and Bowling Green Normal at Bowling Green, Ohio, Friday night.

Cedarville fans will be treated to a real basketball feast Friday, Jan. 28. The Cedarville High school boys and girls play the Beaver High School boys and girls in the Alford Memorial of the College. Also the Cedarville College girls will meet the Bluffton College girls the same evening in the same place.

The College and High School officials have gotten together and are putting on these three games at 35 cents for adults and 25 cents for school and high school pupils. Referee S. Morton Creswell.

## Is It Yours

LEWIS CARROLL  
January 27, 1832.

Lewis Carroll, author of "Alice in Wonderland," was Charles Lutwidge Sr. Dodgson, son of a vicar in England. Charles Dodgson was born in Cheshire in 1832. He went to Rugby and Oxford. He was ordained a deacon and intended to become a minister but never did so, because of a strammer which prevented his reading aloud.

Much is known of Lewis Carroll but concerning the private life of Charles Dodgson there is very little to know. His earliest publications, which came out under his own name were "A syllabus of Plane Algebraical Geometry," and "The Formulas of Plane Trigonometry."

This rather learned young man was very fond of children, particularly those of his friends Dean Liddell. Alice was the Dean's daughter Alice was always begging for stories and out of them grew "Alice's Adventures in Wonderland," which came out first in 1865, under the name of Lewis Carroll. This was followed by "Through the Looking Glass," "The Hunting of the Snark," and other which children and whimsical minded grownups will always delight in.

Meanwhile, as C. L. Dodgson, he was publishing books with such titles as "Elementary Treatise on Determinates" and other learned books. He lived a very quiet studious life and died in England in 1898. Alice who lived to be quite old an lady, died only a few years ago.

In spite of the fact that he was an excellent mathematician, C. L. Dodgson will pass into oblivion, but the whimsical humor of Lewis Carroll will keep that name forever before the public.

## MOTOR AIDS

When the edge of your cold chisel breaks off because it is too hard, it is not wise to soften it. Grind it back to the edge of the fracture where the temper will be found to be right for all around work. Many chisels are softened by a too hasty grinding on an emery wheel. On the other hand a too hard chisel may have the temper slightly drawn by hard grinding in careless hands. It should be plunged as soon as the color shows right.

When chipping steel, rough bronze or wrought iron, the worker who overhauls his own car will get a sharper edge on his tools if the edge is frequently rubbed on an oiled soap pad of waste or rags. The heavier the oil the better the results.

A pilot light, to show whether the current is on or not, is a worth while economy on a storage battery charging circuit, electric vulcanizer and the like. Without the pilot light there is always danger that the circuit may be opened when it should be open, and the light will indicate this.

## BOWELS SO BAD HE TOOK QUART OF MIN- ERAL WATER A DAY

Mr. Whitesides was in a bad way. Tells how he got over it.

"I suffered for years with stomach troubles and constipation. I got so I could eat nothing but soft food and had to take a quart of mineral water a day for my bowels. I decided to try Milk's Emulsion and have used 3 bottles. The results have been wonderful. The soreness left my stomach, I can eat solid food, my bowels have improved and I feel like a new man. Anyone suffering as I did should lose no time in starting on Milk's Emulsion."—M. F. Whitesides, 2141-2 S. 6th St., Springfield, Ill.

The more physics you take, the more you'll need. Break away from them. Milk's Emulsion costs nothing to try. Milk's Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physic. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milk's Emulsion is strongly recommended to those whose sickness has weakened and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

No matter how severe your case, you are urged to try Milk's Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 75c and \$1.50 per bottle. The Milk's Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.

## TRACTOR PRICES CUT:

FORDS MAY ADVANCE.

Detroit Jan. 27.—A reduction of \$165 in the price of tractors was announced by the Ford Motor Co. The cut is made possible, it was said, through lower cost of materials and improved production facilities. While no change was announced in the price of automobiles and trucks, the statement says, lack of a large volume of new business may necessitate an increase.

## "DANDERINE"

Girls! Save Your Hair!  
Make It Abundant!

Immediate effect a "Danderine" massage. Your hair takes on new life lustre and wondrous beauty, appearing twice as heavy and plentiful, because each hair seems to fluff and thicken. Don't let your hair stay life less, colorless, plain or scraggly. You too, want lots of long, strong, beautiful hair.

A 35-cent bottle of delightful "Danderine" freshens your scalp, checks dandruff and falling hair. This stimulating beauty- tonic gives to thin, dull, fading hair that youthful brightness and abundant thickness. All druggists.

## SUFFERED ALL A WOMAN COULD

Mrs. Meyer Finally Found  
Relief and Health in Lydia E.  
Pinkham's Vegetable  
Compound

Orange, Cal.—"I always feel very grateful to you, as some twenty years ago, three doctors said I had to have a serious operation. I had a tumor, and ulcers which would gather and break. I had displacement so badly that I could hardly sit down at times, and it seemed as if I suffered everything that a woman could suffer. Then some one advised me to take Lydia E. Pinkham's Vegetable Compound, and I took it until I was cured and saved from the operation. I have told women of your wonderful medicine times without number, and I am willing that you should use these facts and my name if you like. I also used your Compound during the Change, and I can do all my own work but the heavy part, and can walk miles every day as I help my husband in the office."

—Mrs. J. H. Meyer, 412 South Orange St., Orange, California.

It is quite true that such troubles as Mrs. Meyer had may reach a stage where an operation is the only resource. On the other hand, a great many women have been restored to health by Lydia E. Pinkham's Vegetable Compound.

**COUGHS, CHEST COLDS, SORE THROAT, CROUP**

Ends Quickly When This Home Made Remedy is Used

You have no idea how quickly a cough can be conquered until you have used Glando Pine. It is cheap but it does the work quickly and pleasantly. It tastes well and will keep in any climate.

Get a 3-ounce bottle of Glando Pine with full directions for preparing and you will have a family supply of the best cough medicine you ever used. Enough for a full pint costs only 50 cents. The first dose relieves. It makes you breathe deep and easy, soothes and heals the membranes of the air passages, cuts the phlegm and loosens a dry cough. There is nothing better for bronchitis, croup, hoarseness, throat irritation or bronchial asthma.

Don't delay but get a bottle and be prepared to protect your family. Save doctor bills. Glando Pine is guaranteed to give satisfaction. Manufactured only by the Glando-Aid Company, Ft. Wayne, Ind.—Adv.

**IF ANYONE DOUBTS WHAT DRECO DOES IF CAN PROVE IT**

Tiffin lady knows from experience that backache, stomach disorders, headaches and constipation can be relieved.

Hands often went to sleep, and had to rub them to start circulation. Dreco stopped all that too.

"I feel better than I have in ten years, and have gained in weight since taking Dreco," are the words of that highly esteemed lady, Mrs. Lucile May, of 99 W. Market St., Tiffin, O.

"My back used to feel that it would break; I was daily constipated; couldn't eat much because my digestion was so poor; my nerves were on edge and my sleep very light so that I'd wake from any slight noise."

"My hands often went to sleep, and I'd have to rub and pound them to get the circulation started. All these troubles are gone since taking Dreco. I never have a backache; sleep sound; have a fine appetite; bowels act regular every day; am gaining in weight and feel great. If anyone has any doubts about Dreco, I can prove to them what it will do."

Dreco acts on the vital organs to build them up, so that they perform, as Nature intends. Dreco does not just "boost you up," while you take it, but restores the organs to normal healthy activity. That is why Dreco results are lasting.

All good druggists now sell Dreco and it is being especially introduced in Xenia at Sohn's Drug Store.

## EAST END NEWS

Mrs. Mamie Gillam of Wheeling, West Va., spent Sunday with her aunt and cousins Mrs. William Bass and family of Main street, enroute to Springfield.

At the Third Baptist Church Wednesday night, Dr. J. Wesley Carver discussed the subject "Christ Or What Other Substitute," using as a text John 8:58. The speaker emphasized the fact that "Religion is the most fundamental thing in human nature. He said "the vital question is not whether men will have religion, but rather what kind of religion will they have. He observed that the claims of Christianity had been submitted to practical tests in the field of human uplift and closed by affirming that the Christian Religion alone answers the cry of human souls, satisfies the inquiry of human minds and meets the need of human hearts. These special sermons will be held each evening this week and on Sunday. A special invitation to everyone to attend.

Mrs. Daisy Pettiford of East Church street was in attendance at the funeral Wednesday of her uncle William Johnson of Yellow Springs. The members of the executive Board of the Springfield District convention (Baptist) will hold a session at Zion Baptist Church Sunday afternoon 2:30. A splendid program has been arranged. Prof. E. W. B. Curry, pastor of the Second Baptist Church Springfield, will preach the sermon at that hour. Mrs. Charles Lockett of St. John's Church Springfield will sing. Rev. Curry is one of the best known pulpits in the state and the occasion will be a rare treat to those who avail themselves of the opportunity to hear him.

Mr. J. J. Turner was called to Kirksville, Ky., to attend the funeral of his niece Mrs. John Prentice.

Master J. W. Smith, East Third street underwent an operation in the office of Dr. McPherson Wednesday morning.

**Lincoln Notes.**  
Friday will be a Red Letter day with all the Xenia Schools. I will be a special "Go to School Day" and all patrons and friends are invited to attend both morning and the state and the occasion will be a public demonstration in the domestic science department. At 1 p. m. the public demonstration will be by the senior class, subject "Pastry." At 2 p. m. the demonstration by the Junior class on "Variations of Baking Powder Blauits."

The morning session begins at 7 a. m. in the high schools and at 8:30 in the grades. In the afternoon one section of the grades will begin at 12:10 p. m. and the other at 12:45 p. m.

Refreshments will be on sale at the domestic science department throughout the day.

In the evening a program free to the public will be given at the Opera House. The main feature of the program will be the illustrated lecture by Mrs. Edith McClure Patterson of University of Chicago. The song leader of the N. C. R. of Dayton will also be present to lead the audience in songs thrown on the screen. Let this day be an all day school day for you.

**CUT THIS OUT—IT IS WORTH MONEY**  
Cut out this slip, enclose with 5c and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley Kidney Pills for pains in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headaches, and sluggish bowels. Sayre & Hemphill.

**NEWBERRY GAINS**  
Washington, Jan. 27.—A gain for Senator Newberry of 112 votes in the first ward in Detroit, was shown by the recount today of the ballots cast there in the Ford-Newberry senatorial election. The senate committee conducting the recount reached Wayne county today on the last lap of the retabulation of the ballots.

**RHEUMATISM LEAVES YOU FOREVER**  
Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poisons Start to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that of two bottles of Allenru, the cure for rheumatism, does not stop all away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases and he has instructed Sayre & Hemphill to guarantee it in every instance.

## HARDING HALTS TO ADMIRE BABY—VACATION PARTY WAITS

President-elect Harding, at extreme right, playing with Master Ewing Easter of Baltimore, on deck at St. Augustine. At left are Senator Frelinghuysen, Harding's host on the vacation, and Harding, on the deck of the houseboat "Victoria."

That President-elect Harding is a lover of children is known. So no one in the party accompanying him on his vacation on Indian river, near St. Augustine,

Fla., was surprised when he halted departure of the party from the dock at St. Augustine while he admired the infant son of Mrs. Ewing Easter of Baltimore, who

is now in the Florida city with her babe. Harding is a guest of Senator Joseph S. Frelinghuysen on the senator's houseboat "Victoria."

## MRS. LYDIA E. SMITH DIES ON THURSDAY

Mrs. Lydia E. Smith, widow of Moses Smith, died at the home of her daughter, Mrs. Augusta Hackney, of near Kingman, Thursday morning at 8 o'clock, after an illness of several days.

Mrs. Smith was before her marriage, Miss Lydia E. Oglesbee and was born near Lumberton, being 68 years of age at the time of her death.

Her husband Moses Smith preceded her in death about 20 years ago.

She is survived by three children Wilbur, of near Xenia; Irvin of near Jasper, and Mrs. Augusta Hackney, with whom she made her home.

Three sisters Mrs. Susan Peterson Mrs. Sarah Myers and Mrs. Melissa Probasco, and three brothers, Freeman, Wilbur and Dennis also survive. The late Dr. E. C. Oglesbee of Cedarville was a brother of Mrs.

Smith. Funeral services will be held at the late home at 12 o'clock Saturday and at 1:30 at Eleazer Church. Burial at Woodland.

**MRS. VANDERBILT TO WED**  
New York, Jan. 27.—Mrs. Catherine Neilson Vanderbilt, who obtained a divorce from Reginald C. Vanderbilt in 1919 and Sidney Jones Colford, Jr., today obtained a marriage license at the municipal building.

**SAYS IT FIRST AND SAYS IT LAST**  
Carrie G. Harrel, 319 Nicholson St. Norfolk, Va., writes: "I'll tell anybody that Foley's Honey and Tar is all right. It did me all the good. I said it first and I'll say it last." Thousands of bottles of this reliable remedy were bought last week by careful mothers so as to be prepared to check coughs, colds and croup at the beginning. It acts almost instantly, cuts phlegm, soothes raw, irritated membranes, stops tickling in throat. Sayre & Hemphill.

## LOCAL DRUGGISTS TO ATTEND STATE CONVENTION SOON

Local druggists, members of the Ohio State Pharmaceutical Association will attend the 42nd semi-annual convention of that organization held at the Chittenden Hotel in Columbus, February 3 and 4.

Governor Davis, James A. White, superintendent of the Anti-Saloon League, C. C. Crabbe, floor leader of the House of Representatives, John Shearer, Prohibition Director Samuel C. Henry, Secretary of the National Association of Retail Druggists and other prominent speakers will occupy the program.

Among the questions to be taken up at the convention will be the new prohibition enforcement bill, which is slated for passage. Further legislation limiting the sale of alcoholic preparations to licensed dealers is also being talked of, as these dealers can be more nearly kept under the control of the government. The retail druggist is licensed now by the state to sell dangerous and potent drugs. A violation and conviction of him would mean that his pharmacist license would be revoked and hence he can be controlled better than any other dealer.

The Association warns the public against the use and the poisonous effects of various alcohols, now being sold indiscriminately by grocers filling stations and other dealers and which result in many deaths. The Poison Law requires the druggist to record the sale of all poisons. This law it is pointed out should be enforced upon all dealers. Wood alcohol in its commercial form contains a large percentage of acetone, a rank poison, while in its pure form as methyl alcohol it is also poisonous or produces blindness because the kidneys cannot eliminate methyl alcohol in the same manner as they do grain alcohol, or ethyl hydrate as carbon dioxide and water. Grain alcohol or ethyl hydrate is also poisonous but if one survives its immediate effects then it is entirely eliminated and does not leave such bad after effects as blindness as in the case of methyl or wood alcohol.

On account of the high cost of wood alcohol very little is used now as formerly while denatured grain alcohol is used instead. Grain alcohol is denatured or rendered impotent by the addition of benzene wood alcohol and some pyridine base which renders it unfit for either external or internal medication. This poison is sold under the name of Denatured Alcohol and its sale, claim members of the Association, should be recorded as other poisons and so labeled.

Medicated alcohol is grain alcohol to which some medicine as corrosive sublimate, formaldehyde, lysol or carbolic acid has been added rendering it unfit for internal use but making it for for external use without injury. There is a legitimate need for the use of pure grain or ethyl alcohol for external use as well as internal and hence the physician should be given the right to prescribe and the pharmacist the right to dispense, it is claimed, without classifying and tagging them as retail liquor dealers. Unless police authorities enforce the recording of sale of wood and denatured alcohols as well as other poisons then more drastic legislation should be passed it is claimed allowing only druggists to sell as they are controlled by state license and the public is protected by the State Association.

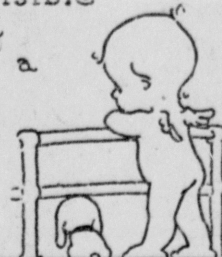

After February 15, Tincture of Ginger of double strength only will be allowed to be sold. This double strength, it is said, will not stop its

I love the lights on the river at night, Long and golden and thin, Like liquid notes made visible From the song of a violin.

use by some 'mummified stomachs.' The Association says: "This strength tincture is in our belief now beyond the average human tolerance. Prohibiting its sale entirely will be the only way to stop its sales.

### EDITOR'S ARTICLE REACTS UNHAPPILY

Wilkesbarre, Jan. 27. — John J. Butch McDevitt, of "Millionaire for a day" fame is laid up at his home in Wilkesbarre as a result of a beating administered him last night by eight business men of Wilkesbarre. McDevitt is the editor of "Plain Talk" a publication which appears twice a month and which is considered snappy. McDevitt is alleged to have printed an article in this week's issue about a business man going to New York with his stenographer. Eight men in an auto drove up to McDevitt's office last night and attacked him. One of the men was recognized as a prominent banker it is declared.

### HOUSEHOLD HINTS

**MENU HINT**  
Breakfast: Boiled Rice, Glazed Apple Sauce, Scrambled Eggs with Chipped Beef.  
Luncheon: Biscuits, Coffee.  
Dinner: Bean Soup, Rolls, Cinnamon Toast, Tea.  
Oysters Mornay, Celery and Apple Salad, Coffee.

#### RECIPES FOR A DAY.

**Spider Corn Cake**—Three-quarters cup cornmeal and flour to fill the cup, one cup sweet milk, one-half cup sour milk, one tablespoon sugar, one-half teaspoon salt, one teaspoon soda (scant), one egg, one tablespoon butter.

Mix meal, flour, salt, sugar and soda. Beat the egg, add one-half of the sweet milk and all of the sour milk. Stir this into the dry mixture. Melt the butter in a hot spider and pour the mixture into it. Pour the remaining half cup of sweet milk over the top, but do not stir it. Bake twenty minutes. Start with highest flame, and reduce to medium or lower in case there should be a tendency to burn.

**Ground Hominy**—Remove hulls from four quarts shelled Indian corn by boiling six hours in water to cover, to which three heaping tablespoons soda have been added. Parboil twice and wash thoroughly to remove the taste of the "lye" before using. For breakfast put through coarse grinder of food chopper, salt to taste and reheat. May be used as a vegetable by seasoning with butter, salt and pepper or covering with white sauce. To make half the quantity use two tablespoons soda.

**Mock Turkey for Six**—Roll one and one-half pounds veal steak in flour and season with salt. Cover

with dressing made of four cups dry bread, crumbed, enough hot milk to moisten, one tablespoon butter substitute, one cup chopped celery, using outer stalks and part of the leaves, and salt and pepper to taste. Roll meat, tie in place. Pour over two cups hot water; place strips of salt pork on top and bake in slow oven, basting occasionally. Make gravy by adding flour and equal quantities milk and water.

**Pattycakes**—One cup sugar, one-half cup butter substitute, one egg, one-half cup sour milk, one-half teaspoon salt, one-half teaspoon nutmeg, one-half cup each chopped nut meats and raisins, one-half teaspoon soda, three teaspoons baking powder, two and one-half cups of flour. Cream sugar and butter, add beaten egg, sour milk, flour, soda, baking powder, salt, seasoning, raisins and nuts. Dip with teaspoon onto greased pans and pat into shape with fingers dipped lightly in flour. Any cookie recipe may form the basis for these pattycakes, which are so much easier and quicker to make than rolled out cookies.

**Lemon Cake Pie**—Line a pie pan with good rich crust, then mix two tablespoons of flour, one cup of sugar, piece of butter the size of walnut, one-half teaspoon salt, the yolks of two eggs, beat all well. Then add one cup milk and fold in beaten whites of the two eggs. Bake thirty-five minutes. The top will form cake and the custard at bottom.

Chop the almonds fine and add one egg, then the sugar, melted butter, orange juice and cinnamon. Chop or pound in a mortar for five minutes, and finally add egg and macaroons, which have been powdered by pounding in a mortar or rolling with a rolling pin on a board. Mix this well and place in a baked pie crust. Bake quickly.

Eight olive trees on the Mount of Olives, Jerusalem, are known to have existed in 1099, 822 years ago.

### The Woman He Married

BY JANE PHELPS

"Dear Nan and Dick," Mother commenced her letter. "I have been thinking very much of you in the last few days, Nan, ever since I received your letter, in which you so nobly told me all your mistakes. I believe you, a small-town product, could not withstand the lure of a big city. I also think Dick has been too—what shall I say?—too easy-going perhaps to be im-pervious to its temptations. Don't be hurt or angry at an old woman, Dick. I don't know how else to express what I feel."

"I have known the banker in the next town. Nan knows Lansing, the place, and she must also remember Mr. Peabody the banker. I have had a long talk with him, telling him nothing save that I want you near me, and that Dick has been with one house since he left college. He needs a young man in the bank. He will give Dick the position. But he must know at once as there is another applicant, also the son of an old friend. You may hate to give up your position, Dick, and your big salary. But talk it over, you and Nan. If you decide to accept it, telegraph Mr. Peabody at once."

I stopped reading to look at Dick. "Give up my position—if she only knew!" he groaned. Then, "If that man knew I had been discharged he would withdraw his offer mighty quick. Banks are leary of men who gamble."

"Oh, Dick, try to forget just for a moment." Then it flashed over me that Mr. Burns might also interfere with this opening if he heard of it, might seek further to revenge himself on me. "I tell you, dear, no one need know anything about it. We will leave no address. We will start all over again just as we did when we were first married—only this time we will start right and stay

right. "But Nan, you would not like to give up all your acquaintances in New York, all your friends," then before I could answer, go on, read the rest of the letter."

"If you accept this I would advise you to sell your household effects. Moving them would be very expensive. Nan and Junior can remain with me for a couple of months until you get a place to live, and can save something for furniture. What you get for that in your home will bring you here. Lansing is so near you can spend Sundays with us. Dick, and so you will not be quite so lonely."

"I am hoping, yes, praying, my dear children, that you will accept my plan; that you will wire Mr. Lansing that you will come. But whatever you do, remember I love you and have faith that in the end you will come out all right. To go on doing wrong when you realize it is wrong is foreign to you both."

"With love, and prayers for you all."

"Mother."

"We'll go!" Dick exclaimed, unashamedly wiping his eyes. "We'll go and prove her faith in us is not misplaced."

"Run out and send the telegram," I urged. Dick was so depressed, so uncertain these dark days, he might change his mind.

The telegram had gone. There now remained to get away as quickly and as quietly as possible. When I thought of leaving without telling Mrs. Gray where we were going, I felt very badly. I spoke of it to

"Tell her if you wish, Nan. She's true blue. She'll never speak of it to anyone."

So I told her, showing her Mother's letter, but saying nothing about the loss of Dick's position. That wasn't necessary.

"I shall keep your secret, dear," she said, "and I believe your mother is right. If you had been older, the lure of the city would not have caught you as it did. Fill your mind with other things, Nan. Read, study help your husband, and forget style. Not that you shouldn't look as well as you can, as well as you can afford—but when you try to do more, it invariably spells trouble. I shall miss you all. Dear—Junior especially he has been such a comfort to me many times when I have been sad. Will you write me, sometime when you get his picture taken, send me one? I don't know that I ever told you but we—lost our boy."

I thought much of what Mrs. Gray had said about helping Dick. Yes, that was what I would try to do the rest of my life—help Dick and not be a hindrance! I knew many women did big things nowadays. If I could only do some small thing to help him, that would be my chance in the world where there were fewer unhappy households. Even when I first knew her I realized that and felt her influence for good, but would not let myself be influenced. In fact, I fought not to be.

### The Big Country Merchant

It is service to the rural community that makes the big country merchant big. That's what A. B. Macdonald discovered when he began writing the stories of their success for

### The COUNTRY GENTLEMAN

He found that the rural merchant prospers as he helps his neighborhood and county to prosper; that his custom will grow as his ability to render prompt, efficient, thorough and fairly-priced service increases.

In next week's issue Mr. Macdonald tells of a small-town hardware store that has, by honest dealing and constant endeavor to serve, established itself in a wide and secure trade. Clarence Badington Kelland, in the same issue, tells of a village general store that weathered mail-order and chain-store competition by making itself a vital factor in the lives of its patrons.

For every farm-community problem THE COUNTRY GENTLEMAN offers week by week guidance—pointing the practices that pull counties, as well as individuals, "out of the rut." This is just one aspect of a service as broad as our whole farm industry. To enjoy it for a whole year just send me, today, \$1. for the next 52 issues of this big, practically helpful weekly.

It saves you time, worry and money
